Ominous Warnings.

GERMAMS EVACUATING.

Prince Napoleon for Assembly.

FRANCE.

CONFIRMED.

Versailles, June 9.—The report that General Rossel and M. Courbet had been arrested in Paris is confirmed.

MILITARY.

It has been determined that the court-martial shall hold for trial the offenders against the government as military and not as political prisoners.

GOVERNOR OF PARIS.

General l'Admirault will probably be appointed Governor of Paris.

ELECTIONS.

The supplementary elections to the Assembly are fixed for the 7th of July.

HOMEWARD BOUND.

The Prussian troops remaining in France have begun their homeward march.

FALSE.

The report that Jules Favre had been appointed Minister to Washington is false.

FINANCE.

Versailles, June 9.—The Minister of Finance, in presenting to the Assembly a bill making provision for a loan of one hundred millions sterling, urged the payment of the war indemnity, in order that France may be rid of the Germans. The Minister said that he relied for success in raising the loan upon foreign confidence in the ability of France to meet her obligations and the internal energy of the nation. He promises the exercise of strict economy in all expenditures of the Government.

SUPPLEMENTARY ELECTIONS.

Paris, June 9.—A decree, ordering the supplementary elections to fill the vacant seats in the Assembly, is expected to-morrow. The *Gazette de France* says the Princes have promised not to take their seats as Deputies during the existence of the present Assembly, and not to allow their sons to become candidates. M. Forcade Larcquette will stand for Assembly in the Department of Lot Et Garonne, and his election will probably not be contested. Rouper, Guerroniere and Hausimann are also spoken of as candidates. It is almost certain that Prince Napoleon will run for Assembly from Corsica.

CONCEALED ARMS.

Many rifles are found daily, concealed in cellars, churches, and in the catacombs.

SLIDING DOWN.

The *Opinion Nationale* commenting on the action of the Assembly, warns the country that it is sliding down an inclined plane into monarchy. Other journals approve of yesterday's proceedings. *La France* compares the speech of M. Thiers to the proclamations of Washington.

GERMANS EVACUATING.

The German forces have commenced evacuating the Department of the Lower Seine. It is expected that the state of siege will cease in Paris on Monday.

ENGLAND.

SNOW.

London, June 9.—The weather is unusually cold for the season. Snow fell in Yorkshire this morning.

THE TREATY.

London, June 9.—The *Times* of to-day in an editorial, reviewing the grounds of Canadian opposition to the treaty of Washington says; the treaty sacrifices the interests of smaller communities to convenience of powerful states, that a portion of the Empire is made a scape goat for the peace of the whole, and that the possessions of marine provinces have been bartered away. The *Times* however urges: the acceptance of the treaty by Canada, as a compensation for the boon of American free trade, which is rapidly gaining ground in the United States.

PARLIAMENTARY.

London, June 9.—Official statements were made in both Houses of Parliament to-day of the imprisonment and killing of certain British subjects in Paris during the recent insurrection. The House of Commons has passed the Westmeath Bill, enlarging the powers of the government for the repression of violence in Ireland.

COLLIERS' STRIKE.

London, June 6.—The colliers on strike in Wales propose to submit their demands to arbitration.

ROSSEL IN LONDON.

The Edinburgh *Scotsman* has positive information that Rossel is in London and discredits the report of his arrest in Paris.

ARRIVED.

Queenstown, June 9.—The China from New York, arrived at 5 P. M., and proceeded to Liverpool.

ROUMANIA.

LEADER CHOSEN.

Bucharest, June 9.—The Roumanian Chamber of Deputies has verified the election of its members, and chosen Prince Yhika, leader of the conservatives, as its president.

RUSSIA.

THE CROPS.

St. Petersburg, June 9.—It is officially stated that the crops of all kinds in the Empire promise an excellent yield.

FINANCIAL AND COMMERCIAL.

London, June 9, 5 P. M.—Consols 91⅜; 5-20s; do '62, 90½; '65, 90⅝; do '67, 92¼; 10-40s 88⅜. Refined Petroleum 17¾s@18s.

Manchester, June 9.—Market strong.

Liverpool, June 9.—Cotton firm; middling upland 8¼d. Receipts of wheat for 3 days, 25,000 bushels, American 10,000. Pork 59s. Lard 47s.

BALTIMORE.

The Printers.

Baltimore, June 9.—The International Typographical Union met this morning. A resolution was adopted that no money shall, under any circumstances, be endorsed on a traveling card. Mr. Fitz Williams, of Washington, moved to expunge the resolution passed at the Albany Convention in reference to the attempt to force upon the Columbia Union L. F. Douglass, an avowed rat, &c. An exciting discussion ensued, the sentiment of the majority being evidently in favor of laying the matter on the table. The President finally decided the motion to expunge could not be entertained. Mr. Fitz Williams, in a personal explanation said on behalf of Columbia Union, that they had never desired to force the negro question on the International Union. Two years ago at Albany, a delegate from Columbia introduced the subject without authority, and his move was to relieve Columbia Union of the onus of having originated the question. A resolution that the Albany Convention did not intend to censure the Washington Union by the resolution passed in reference to L. F. Douglas, was adopted by a large majority. The Convention then went into secret session.

NEBRASKA.

Sudden Death.

North Platte, June 8.—Madame Joanna Maria Goverinda Pentermans, a native of Belgium, died on the western bound emigrant train, near Brady Island, last night. She was traveling alone, and had a through ticket from New York to San Francisco. The cause of her death is supposed to have been epilepsy. About ten thousand dollars, mostly in United States bonds, were found on her person. The remains will be buried at this place to-day.

IMPEACHMENT.

At Lincoln yesterday the Impeachment Court in the case of ex-Auditor Gillespie adjourned until the second Tuesday in January, and the Legislature adjourned until the same day.

SPECIE.

There is a car of specie here from California on its way east, containing eleven million dollars. It is detained by high water in the river, making its crossing dangerous. It is well guarded by soldiers. The river has risen about one foot to-day.

KANSAS.

Railroad Extension.

Fort Scott, June 9.—A large delegation of city and county officials of Paoli and Miami county arrived here to-day from Sedalia, Missouri, where they made arrangements with Manager Stevens for an immediate extension of the Missouri, Kansas and Texas Railway from Harrisonville, Missouri, to Paoli, the county seat of Miami county, Kansas. The grading and masonry are completed to the State line, and the track has to be completed by October 1st. The recent decision of the supreme court of Kansas sustaining the validity of the city and county bonds has given a new impetus to railroad building in all parts of the State.

ST. JOSEPH.

Forgery.

St. Joseph, June 9.—A. C. Jones, who was recently arrested for forging the signature of Thomas A. Scott, President of the Union Pacific Railroad, to free passes, was to-day sentenced to three years in the Penitentiary.

CONGREGATIONAL CONFERENCE.

At the meeting of the New York and Brooklyn Conference of the Congregational Churches held in Newark yesterday, the Committee to consider the question of the relation of the Congregational Churches to the American and Foreign Christian Union, reported resolutions declaring that in the judgment of this Conference the American and Foreign Christian Union should no longer be the channel for contributions of the Congregational Church, but that early measures be taken to provide agencies, through which these churches can act efficiently and satisfactorily. They also recommend that a deputation be appointed to confer with Congregationalists in other parts of the country, for the adoption of some method of united action in the evangelization of nominally Christian lands. The report was adopted unanimously, and Rev. Dr. Budington and H. M. Storrs, of Brooklyn, and Rev. Dr. R. Palmer, of New York, were appointed as the deputation.

THE MASONS.

In the afternoon session of the Grand Lodge of Masons of this State yesterday the following additional officers were elected: John W. Simmons, Grand Treasurer; James M. Austin, Grand Secretary; R. L. Schoonmaker, Ferdinand C. Eun and John G. Webster, Grand Chaplains; W. Johnson Fountaine, Grand Pursuivant, and John Hoole, Grand Tyler. The committee appointed to consider the expediency of recommending that the whole constitution be revised reported in favor of the project.

The Grand Lodge of Free Masons resumed its session this morning. The Secretary was directed to furnish each Lodge with a copy of the Grand Lodge transactions. The annual dues were fixed at seventy-five cents, one-third of which is to go to the Hall and Asylum Fund. The Committee reported that they saw no reason for amending the present Masonic Ritual. The Lodge then adjourned sine die.

MARINE DISASTER.

A letter from St. John's, Newfoundland, May 24 says: Information has been received there of the total loss of a small coasting schooner, with no less than 40 souls on board. She left St. John's for Old Pelican, in Trinity Bay, and 40 men of the crews of the Nimrod and Hector took passage in her. The poor fellows were inhabitants of Old Pelican and were returning to their homes with the proceeds of their successful voyage. They were nearly all married men with families. The vessel has not since been heard of, and on May 23 a part of the cargo was picked up at sea. It is supposed she struck on an iceberg during the darkness and went down immediately. The little village is a scene of mourning and woe, nearly every family having lost a member.

A FAST YOUTH.

Alderman Cowan, at the tombs this morning committed for trial a young man named Edward H. Noyes, son of a rich Pine street broker. He was charged by Mr. Stetson of the Astor House with having run up a bill there last April, representing himself as an attachee of the Joint High Commission. Subsequently he went to Europe and commenced suit against the steamship company for the alleged loss of his baggage, which was in fact detained at the Astor House. He returned to this city lately and put up at the St. James Hotel, representing himself as Mr. Motley's private secretary, by which means he ran up a large account with its proprietors.

DISGRACEFUL.

A disgraceful scene occurred yesterday at the Union Grounds, Brooklyn, during the contest between the Fivaway and Titan Star Clubs for the possession of the silver ball. The partisans of the clubs assembled in force, and their conduct throughout the game was disgraceful. Rows were frequent, and the Umpire was threatened with assault. Both of the clubs have been prohibited the use of the grounds, and no more junior championship games will be permitted on either of the Brooklyn ball fields.

EXAMINATION CONCLUDED.

The examination of the graduating class of cadets was concluded at noon to-day. All were successful in passing the ordeal. President Grant and party go to Newburg to-morrow to visit the studio of Brown, the sculptor who is engaged upon a statue of General Scott and will return in the afternoon. General Meade, who is to deliver the diplomas on Tuesday next will arrive on Monday. The President and suit will leave the same day.

A STEAMER LOST.

News has arrived of the total loss of the steamer Wolf in Green Bay in the region of the seal fisheries. She was out on her second trip and had a cargo of 17,000 seals on board. The vessel was struck by an iceberg the men having barely time to leap on the ice before she went down. No lives were lost the steamer Lion taking the crew on board.

THE MUTINY CASE.

The counsel for the prosecution in the Bowen Mutiny Case, in which the crew of the J. L. Bowen were charged with mutiny and murdering the Captain, have abandoned the latter charge, as they have no evidence as to who struck the fatal blow. The prisoners will therefore be tried on the charge of attempting to create a revolt.

FROM BERMUDA.

A Halifax dispatch says the St. Thomas and Bermuda steamer has arrived. The new Governor, Major General C. B. Lefrey, and the new Chief Justice, E L. Wood, have arrived at Bermuda and have been swearing in the troops. The steamship Himalaya has arrived at Bermuda from Aspinwall, and has left for England.

FORGERY.

Edward Nevins was convicted to-day at the General Sessions of forgery in the third degree, by issuing counterfeit railroad tickets to Buffalo, and remanded for sentence. District Attorney Fellows said the Erie Railroad had been defrauded to the extent of $30,000 by these forgeries.

CITY FIGURES.

The official statement published to-day shows the total funded debt of the city of New York, May 1st, $49,551,861; floating debt, $10,915,500, and county funded debt, $21,591,150. The sinking fund now amounts to $17,784,063.

MUSICAL.

The twelfth national musical festival of the Northeastern Saengerbund of America will commence in this city on the 24th inst., and will continue six days. Over one hundred German societies will be represented.

THE METHODIST BOOK CONCERN.

The case of Dr. Lanahan, Sub-Agent of the Methodist Book Concern, against the Agent, Dr. Carlton, came up this morning in the Supreme Court, but was adjourned, notwithstanding the protest of Carlton's counsel.

KILLED HIS WIFE.

Edward Walls killed his wife this morning by stabbing her three times in the abdomen with a pocket knife while she was asleep in bed. Mrs. Walls was gashed in a fearful manner.

TRIED TO ESCAPE.

The brig J. L. Bowen made an unsuccessful attempt to get to sea last night to escape paying the salvage claimed by the Europa, who brought her into port after the recent mutiny.

DEATH OF AN AGED CITIZEN.

Hon. Abraham B. Vanderpool, the oldest surviving member of the Tammany Society, died on Wednesday, aged eighty-three years.

IOWA.

Fearful Storm.

Iowa City, June 9.—About four o'clock this afternoon the most fearful storm ever witnessed in this section broke upon us. Rain and hail fell in torrents for about forty minutes, accompanied with a fearful wind from the west. Considerable damage was done in the city, and it is supposed great damage to the crops and fruit in the country was done. The dry goods store of D. Griffiths, on Clinton street, was unroofed, and the entire stock, one of the finest in the city, completely deluged. Damage probably $5,000. The fine red brick dwelling of Mrs. H. D. Downey had the west gable end blown out, and the contents of the house considerably damaged. St. Joseph School building, on Iowa avenue, had one end blown in. It is reported that two or three other houses were unroofed in the outskirts of the city. One man is reported killed. Fruit and shade trees were blown to the ground in all parts of the city. New Trinity church building, in process of erection, was injured some. It is impossible to give the entire amount of damage.

BOSTON.

Railroad Case.

Boston, June 9.—The jury in the case of John A. Colman against the New York and New Haven Railroad awarded the plaintiff to-day the sum of $3,500 damages for injuries received while being put off a train.

BUNKER HILL.

The municipality and citizens of Charlestown have prepared an extensive programme of exercises for the proper celebration of the battle of Bunker Hill.

ST. LOUIS.

Movements of Gen. Sherman.

St. Louis, June 9.—A dispatch was received at Fort Leavenworth yesterday from Fort Gibson, Indian Territory, stating that General Sherman would leave there to-day, and Fort Leavenworth on Saturday.

CATTLE.

St. Louis, June 9.—A dispatch from Aberline, Kansas, says that five thousand additional head of mixed cattle and two thousand beeves arrived there to-day. Close calculation shows one hundred and thirty-two thousand head of Texan cattle are now within a radius of twenty-five miles from Aberline.

PHILADELPHIA.

Homeopathic.

Philadelphia, June 9.—In the homeopathic Convention to-day, it was resolved to hold the next session in Washington, May 1st. Dr. Talbot, New Jersey, was elected President, Dr. Youlin, Vice-President, Dr. McClathery, General Secretary, Dr. E. M. Kellogg, New York, Treasurer. A resolution providing for a Convention of Homeopathic physicians to be held in Philadelphia during the Centennial Celebration of 1876 was passed. Adjourned.

CINCINNATI.

Lutheran General Synod.

Cincinnati, June 8.—The Lutheran General Synod assembled in Dayton, Ohio, this morning. About four hundred delegates were present. Rev. Dr. Puhlman, of Albany, delivered the Synodical sermon, after which the body organized for business. The reports of Committees were submitted.

The semi-centennial anniversary was celebrated to-night. Addresses were delivered by Dr. Schmacker, of Gettysburg, Pa., Prof. Speicker, of Williamsburg College, Dr. Conrad, of Philadelphia, and Dr. Brown. An immense congregation witnessed the exercises.

BEN WADE EXPLAINS.

The *Gazette* this morning prints a private letter from the Hon. B. F. Wade, on which the announcement was based that Wade would, under certain circumstances, accept the Republican nomination for Governor. It publishes this, it says, because an effort is being made to impress the public mind that Mr. Wade desires to enter the contest for nomination. Mr. Wade says that he had received many communications like the one to which the late one was in reply, to which he had replied that he would not accept it if the nomination were offered him. He says that on reflection, however, he was satisfied that this was putting the case too strongly. When I remember, he says, how firmly and generously the great Republican party of Ohio stood by me for eighteen years, during the most turbulent and perilous period of our history, should the Republican Convention consider that it is essential to success to order me again into the field, I could not disobey their mandate without base ingratitude, if not a dereliction of principle. He then simply alludes to the course of the Democratic party, indicating its unfitness to control public affairs, and says he cannot doubt that the Convention will be able to find many more efficient standard-bearers than himself, and that such was his most sincere hope and desire.

MURDER TRIAL.

The trial of McGehan for the murder of a man named Meyers at Hamilton is now progressing at Lebanon. The testimony against McGehan is stronger than at the preliminary trial. One witness swore yesterday, that McGehan said to his comrades, "Let us go and kill him."

The McGehan murder trial at Lebanon has been proceeding to-day, though the court this morning vacated the order for bringing Jack Garver, against whom an indictment is also pending from Butler county. A number of witnesses were examined. Alexander Scott, Deputy Revenue Collector testified with some particularity relative to the contest in which McGehan was killed. He heard the exclamation of pain, saw Meyers down and McGehan standing at the end of the faro table. Samuel Vancamp testified that McGehan expressed anxiety after Myers was killed not to be caught wearing the coat he then had on. The theory of the prosecution appears to be that the shot which killed Meyers was from a pistol concealed in McGehan's pocket. Great interest is felt in regard to the presence of Garver, who it is thought is disposed to make a confession.

RABBINICAL CONFERENCE.

The Rabbinical Conference reassembled this morning. The report of the committee on music and liturgy submitted, held that entire reformation was necessary and recommended the Hymn Book called the Sacred Heart of Juda. Adopted. The *Israelite* and *Deborah* of this city, were declared the official organs of the executive committee. A communication from Dr. Jansfield; asking if Rabbinical inspection of cattle, was regarded as a religious rite or a mere sanitary measure was considered of sufficient importance to refer to a special committee for report at next Conference. The selections for the next Conference were appointed as follows: Dr. Sonneschein on Moses, Mendleshon and Modern Judaism; Dr. Mayor, the idea of God according to the Bible; Dr. Lilienthal, Modern Judaism and Modern Estates. A resolution was adopted declaring the Conference perpetual and all the Rabbis, preachers, religious teachers and readers eligible to membership. Drs. Lilienthal, Wise, Eppstien, Wechteler, Sonneschein and Welch, were appointed the Executive Committee. A resolution of thanks to the local and associated press and members of the Jewish Congregations here after which it adjourned to meet in Chicago the first Monday after penticost. The Mound Street Congregation gave the members a Banquet to-night.

RE-UNION.

The Ninety-third Ohio Volunteers held their annual re-union to-day at Miamisburg, Ohio. About two hundred members of the regiment were present, besides many others. General Thomas S. Wood responded for the soldiers to the welcome address. The occasion was one of the most interesting the organization ever enjoyed.

MORAL SCIENCE.

Two meetings have been held by members of the clergy here with reference to participation in the Christian Moral Science Association to meet in Philadelphia next Wednesday. Eight gentlemen have thus far signified a desire to unite, among them Bishop McIlvaine.

PIKE'S OPERA HOUSE.

Pike's opera house was lighted to-night for the first time preparatory to its inauguration next Monday night. It presents a magnificent appearance.

FIRE.

A fire in Portsmouth to-day destroyed McIntyre & Leets planing mill and damaged the Sheridan House. Loss $15,000. Insured.

CHICAGO.

Church Convention.

Chicago, June 9.—The fifty-second annual general convention of the New Jerusalem Church in the United States, commenced this morning. The Treasurer's report shows receipts for the year ending the first proximo, to have been about $9,000, the expenditures seven thousand two hundred. The report of the executive committee, stated that all the members of the board of publications were reelected, excepting that Geo. W. Cotton of Orange, was elected in place of R. L. Smith deceased. The same sub committees were also re-elected excepting Geo. W. Cotton was substituted in place of Robt. L. Smith on the sub-committee for New York and Benj. F. Glenn was placed on the sub-committee for Philadelphia in place of the Rev. Thomas P. Rodman, deceased. The loss on publishing operations in New York during the year was about four thousand dollars. The annual address was delivered by Hon. J. Young Scammon, Vice President in the absence of the President, Rev. Mr. Worcester.

THE INDIANS.

A meeting was held at Farwell Hall tonight for the of purpose hearing addresses on the Indian question. Seven Indian chiefs were present representing the Arapahoes, Cheyennes and Avicheias. Speeches were made by two of them, Little Raven and Buffalo Good, and by ex-Senator Doolittle, Hon. J. V. Farwell, Hon. Wm. Brass, Mayor Mason and Rev. C. H. Fowler.

LOUISVILLE.

Negroes on the Cars.

Louisville, June 9.—A short time since during the street car excitement in this city, Thurman Preston, a negro, entered an excursion car on Portland avenue, taking a seat in the centre of the car. The conductor tried to get him to take a seat at the end, but he persisted in refusing, when policeman J. A. Wyatt was called up and arrested him, and he was fined twenty dollars in the city court for disorderly conduct. He immediately got out a warrant for Wyatt for assault and battery in illegally arresting him. The case was tried before United States Commissioner, Wm. H. Merreweather, who to-day discharged Wyatt, deciding that negroes in the street cars should take any seat designated by the conductor, provided it is comfortable.

WORCESTER.

Anti-Secret Society Association.

Worcester, Mass., June 9.—The National Anti-Secret Society Association is in session here, President Blanchard, of Illinois, and other leaders in the movement, being present. Professor Sloane, of Allegheny City, Pennsylvania, spoke of the unchristian tendency of Masonry. Rev. L. N. Stratton, of Mexico, New York, thought Free Masonry should be abolished by law. Gen. J. W. Phelps, of Vermont, was elected President for the ensuing year. The convention will close to-morrow.

Fire.

Rochester, N. Y., June 9.—A fire at Oakland, Livingston county, last night, destroyed the Presbyterian church, a hotel and two dwelling houses. Loss $13,000. Little insurance.

CUBAN CLAIMS.

The American owners of estates in Cuba are still complaining that through the efforts of the agents of Spain in this city and elsewhere their claims are constantly misrepresented. The question at issue between them and the Captain General, they say, is not one of damages at all, but whether they shall be allowed to regain immediate possession of their property fifteen months after the home Government has ordered its release, or wait until the authorities on the Island have sold one or two more valuable crops and obtained the money for them. These men expect to go before the Commission with their claims for damages already done. The crops on some of the larger estates have been sold for from two to three hundred thousand dollars. But what they most complain of is, that while the home government has ordered the restoration of their property, the Captain General stands as an impediment in the way of the execution of the order. The statement that many of these have been released is true, but this has not been done until the owners have been forced to pay large sums of money, and those who own the estates still hold claim that they have a right to recover them without further loss. What these claimants desire to have our Government do is to inform Spain that her orders have not been executed, and peremptorily demand that she cause them to be obeyed at once.

SENT TO THE ASYLUM.

F. A. McCartney, superintendent and disbursing Officer of the Postoffice Department, who has been in bad health for the past year, has been sent to an insane asylum. A deficit has been discovered in his account to the amount of between $30,000 and $40,000.

Postmaster General Cresswell was first informed of this state of affairs on Friday last, and immediately commenced an investigation. McCartney on being interrogated by him acknowledged the deficit, saying it was caused by blending public and private business, and by speculations in water power and a marble quarry at and above Harper's Ferry. McCartney told him that he did not know the exact amount he had invested in these enterprises, but he assigned the amount with his other effects to the sureties on his bond in the department of justice which is investigating the subject. It is the opinion that the Government will not lose a cent. McCartney is a man of education and culture, a good writer and filled editorial positions on the *Morning Chronicle*, *National Intelligencer*, and Washington *Express*. The fact is recalled that E. Bolmstead, McCartney's immediate predecessor as disbursing agent, was discovered a defaulter to the amount of $65,000. His lapse appeared to result from aberration of mind, produced by the excessive use of opium.

THE WEATHER.

The barometer has fallen on the Pacific coast, but high southwest winds are now reported. The area of highest barometer has moved eastward and is now central on West Virginia. The barometer has risen in the Atlantic States, but has continued to fall west of the Mississippi and Lake Michigan. The storm announced on Thursday evening in Kansas has moved northeastward, and is now impending over Minnesota and Wisconsin. Heavy rains and wind are reported from the coast of Louisiana and Texas. The temperature remains generally the same as on Thursday, but has fallen on the Western Gulf coast and north of Western Pennsylvania, where northwestwardly winds continued during the day. Eastwardly winds prevailed on Lake Erie. South and southeasterly winds throughout the Mississippi Valley.

Probabilities—Pleasant weather with a light wind are probable for Saturday on the Atlantic coast. The storms in the northeast will probably abate during the night. The rain on the gulf coast will probably extend into the interior. Falling barometer, with easterly winds will probably continue from Blue Ridge to the Mississippi river.

IMPORTANT DOCUMENTS.

Henry S. Northcote, who sailed from New York on Wednesday, was the custodian of all the manuscripts and documents, accumulated by the British members during the session of the Joint High Commission that appertain to the decision on the treaty. Earl De Gray, Sir Stafford Northcote, Prof. Bernard, Sir Edward Thornton, and Lord Tenterdon at the conclusion of each day's session, made up a journal of the day's deliberation, which was, at their leisure, written out in full, so as to form a complete and accurate history of the progress of their labors, the different opinions expressed, the formation of the different articles of the Treaty, as well as the construction which should be given to each portion of the article. The result of their labors, together with all books with references, will be filed in the British Foreign Office for future reference.

LICENSES REVOKED.

The Board of Inspectors appointed by Secretary Boutwell to investigate the cause of the disaster to the steamboat Arthur, near Memphis, last February, by which sixty-five lives were lost, report that the engines were defective, and that the owners and officers were criminally negligent and careless in allowing the boat to be run under such circumstances. The licenses of the engineers have been revoked. From the decision of the Board an appeal has been taken to the Supervising Inspector, who now holds the subject under advisement, but who will undoubtedly sustain the decision of the Board. In that event, all the parties concerned will be presented to the Grand Jury of the United States District Court of Louisiana for indictment on the charge of murder.

CIVIL SERVICE REFORM.

The Commission appointed by the President under the recent act of Congress to make inquiries and suggest a system of improvement in the civil service of the Government have been assigned apartments in the Interior Department. The first meeting will be held on the 20th. Col. Cox, of the Interior Department, Mr. Elliott, of the Treasury, and Mr. Blackford, of the Postoffice Department, have accepted their appointments on the Commission. It is not yet known outside of the State Department whether George Wm. Curtis, Ex-Senator Cattell, of New Jersey, and Joseph Medill, of Chicago, have accepted or not. It is understood that Mr. Curtis will be President of the Commission, and Mr. Elliott or Cox Secretary.

ON THE RETIRED LIST.

Real Admiral L. M. Goldsborough, in command of the Washington Navy Yard, will be placed on the retired list on the first of July, but will probably remain in command of the Yards, as the order of the Secretary, issued about a year ago, forbidding retired officers from holding active commands, has been rescinded. Real Admiral S. W. Gordon, now in New York, retires on the 18th inst., when Commodore Jas. Alden, Chief of the Bureau of Navigation, will be promoted to the grade of Real Admiral to fill the vacancy. The retirement of Admiral Goldsborough on the 1st promotes Commodore Alfred Taylor to the rank of Real Admiral.

PERSONAL.

General Spinner writes from London that he will shortly return to America.

Secretary Delano will probably go from the South to his home in Ohio, and will not return to Washington for several weeks.

Many prominent Ohians in Washington will go to Columbus, to attend the State Convention to be held on the 21st inst.

STRIKE ENDED.

Work was very generally resumed by the laborers to-day, and nothing can be heard of the strike or striker anywhere. Not a man among those employed at the various points throughout the district on public or private work had anything to do with a striker. Laborers, white and colored, are each receiving $1.50 per day.

BREAKING GROUND.

Excavations will be begun in a few days for the foundation of the south wing of the new State Department building. The drawings are not yet completed, though the architect has them well in hand.

TEN APPLICANTS.

There are now ten applicants for the office of Commissioner of Customs. The principal contestants are from New Hampshire and Pennsylvania.

PRESENTED FOR PAYMENT.

Several of the bonds missed from the Printing Bureau, while under the supervision of Edward Clark, have been presented for payment.

MAIL SERVICE.

The great mails between New York, Washington and New Orleans will hereafter be sent by the Alabama and Chattanooga Railroad, saving twelve hours' time.

FOR EUROPE.

Chief Engineer King, of the Bureau of Engineers, sails for Europe to-morrow on special business connected with his Bureau.

THE ARCTIC EXPEDITION.

The Polaris will leave Washington to-morrow for New York, and from thence about the 25th of June to the North Pole.

NEW STAMPS.

Fifteen million dollars' worth of the new internal revenue stamps will soon be issued.

UTAH.

Refuse to Pay the Expenses.

Salt Lake, June 8.—The Mormons having refused to pay the expenses of the United States Courts, the lawyers have stipulated that the fees of the jurors shall be paid by the parties to suits, and Judge McKeen has ordered a jury term of his District Court for the 15th day of July. This arrangement applies only to civil business.

CONCORD, N. H.

Legislative.

Concord, June 9.—In the House to-day after reading the journal, Wadligh Melford offered a resolution that F. M. Messer and Wm. M. Parsons be stricken from the rolls of the House as ineligible, they not having resided in the State, the time required by law, also the name of B. Page of Concord, he not having received a majority of the votes cast. Mr. Bingham, moved the resolution be laid on the table; carried. The House adjourned to three o'clock.

The Democrats and labor reformers were in caucus during the recess, and threaten all night sessions.

In the Senate the committee on examinations of the returns of the election of members, after hearing testimony from the town of Plainfield relative to the votes cast there for Samuel Thrasher that were intended for Samuel P. Thrasher, made a return which was accepted, that the late Samuel P. Thrasher was duly elected a member of the Senate, from District number ten, and that the seat was made vacant by his decrease. The Democrats are jubilant over the organization of the House, and will try to force a vote for Governor, before the sick republican members are brought on the field of action, but it is doubtful if the vote will be reached this week. Benton continues to act as clerk, Jackson not having been qualified.

AT WORK.

At 11:30 general fillibustering is going on in the House, with no prospect of an advance to-night. The contest may be continued until morning. There is no prospect for a ballot for Governor this week.

MEMPHIS.

Shot and Killed.

Memphis, June 9.—During a difficulty at Bledsoes Landing, Arkansas, yesterday a man named John Dunn shot and killed James C. Collins. Dunn escaped. The remains of Collins were brought to this city on the steamer Phil Allen for interment.

THE FRESHET.

Private dispatches from Superintendent Baker at Little Rock say the damage done by the late freshet at Hot Springs is greatly overestimated. None of the principal hotels were injured. Everything is in good order and the place rapidly filling up. Some injury has been done by exaggerated reports keeping people away.

MURDERED.

Dr. Hall, a Mississippi planter, living near Grenada, was murdered recently at his home. The deed is supposed to have been committed by negroes.

HUNG.

Two murderers, John Roseborough and Wm. Harrison, both negroes, were hung at Larion, Crittenden county, Arkansas. Both struggled violently and had to be carried to the scaffold.

DEAD.

A child of John L. Thacher of the Louisville *Courier* on the way home died at Humboldt, of congestion, to-day.

KANSAS.

General Sherman.

Harrisons, June 9.—General Sherman passed through this city this evening on a special train en route for Fort Leavenworth from Texas.

CATTLE.

Large shipments of cattle from the Indian Territory and Texas are daily made over the L. K. & T. Railroad. It is estimated the drive from Texas will reach this season 800,000 of which the M. K. & T. road it is thought will ship about 300,000 head.

THE CROPS.

The wheat crop of this section has been mostly harvested. The yield is unusually large.

IMMIGRATION.

The immigration to southern Kansas and the Osage lands is very large.

TITUSVILLE.

Oil Market.

Titusville, June 9.—The *Courier* reports the Petroleum market as follows: Sales—Upper Road, 500 bbls spot, $5; do do 1500 do do, $5; do do 500 do regular, $5.05; do do 2000 do S. O. 90 days, $5; do do 2500 do B. O. 1st 6 months $5.15. Story Farm, 1500 do regardless $5.25. Rouseville, 500 do do $5.25; Rouseville, 1500 do do $5.25. Lower Road, 5000, do spot, $5.25; do do 2000 do regular, $5.27½; do do 2000 B. O. 1st 6 months $5.27½; do do 200 1st 6 months $5.27½. 3000 B. C. 6 months $5.72½. Oil City, 1000 do do regardless $5.40. The market continues quiet, with no inquiry and very little disposition to sell. The prices remain unchanged. On the upper road the holders want a little more than the five, which is all they can get for spot. The lower road market remains firm at $5.25. At Oil City there was little business done, and the market was nominal and closed quiet.

TROY.

Sad Accident.

Troy, N. Y., June 9.—Last night just as the Cohoes Mills were closed a man named Richard Kerr was rowing a boat in the Upper level feeding the mills. Four girls, Maggie McNutt, Mary Jane Gallaher, Bertha Redwood and Martha Campbell asked for a sail. Kerr came ashore and took the girls in and rowed out, but the boat being too small the girls became frightened and the boat upset within ten feet of the waste gate leading into an arched passage 300 feet long. Kerr seized Miss Gallagher and clung to the timber in the arch until they were rescued. Miss Belle Ferguson saved Martha Campbell. Miss McNutt and Miss Redwood were carried through the passage. The former was drowned. Miss Gallagher and Miss Redwood are both in a precarious condition.

MONTANA.

Died of His Wounds.

Helena, M. T., June 9.—Frank Kelley of Halifax, Nova Scotia, whose relations are now living in Woodsfield, Massachusetts, who was shot by Cassiday *alias* Walker, at Pioneer, last week died Wednesday.

A FREE FIGHT.

Thomas Catsmoth, Patrick McLaughlin and the miners on the Upper Ten mine had a difficulty about the division of money yesterday afternoon. The elder McLaughlin took an axe and started for Catsmoth who fired a revolver. The ball struck the son who is not expected to recover. Catsmoth fired again killing Patrick McLaughlin instantly. Catsmoth came in this morning and delivered himself up to the Sheriff for trial.

SIOUX CITY.

Investigation.

Sioux City, June 9.—An investigation into the acts of Geo. A. Batchelder, Secretary of Dakota Territory, has just been concluded and they found that he is unable to account for some 8,600 dollars belonging to the Territory. An effort is being made to compromise the matter which will undoubtedly succeed. Batchelder is a son-in-law of Gen. Hamlin of Maine.

THE PRIZE RING.

Jack Ryan of Dubuque, and Thomas Lee of Montana, two pugilists of local notoriety are up for a fight at some point in Dakota, within ten miles of this city, Monday next, for a prize of one hundred dollars

CANADA.

Indian Raid.

Toronto, June 9.—The evening *Express* publishes the following: We have received positive information from private and trustworthy sources that the Indians have come down in force upon the Hudson Bay Company's buildings at Shebandoan, and have burned their steamers and buildings, and all the material, together with all the tools; they have also stolen all the provisions in the store. The condition of affairs is most alarming and it is impossible at present to guess the extent and meaning of this sudden and destructive attack. The people are in a state of the utmost terror.

MILWAUKEE.

Criminal Prosecution Abandoned.

Milwaukee, June 9.—The alleged bastardy case of Father Dilworth was ended by the discharge of the defendant on account of contradictory statements and evidence of the complainant, Miss Smith.

MAINE.

Drowned.

Portland, June 9.—At Oxford, Maine, three men, S. E. Verrill, J. C. Baker and Robert Edgeson, were drowned in a pond this afternoon by the upsetting of a boat.

—At Ayer, Mass., a paint shop, sheds, and a part brick building belonging to the Ames Plough Company, were destroyed by fire Friday night. Loss not yet ascertained.

The Beautiful Burdett Organs.

Are becoming as much sought after as the Steinway Pianos. The annexed letter from an accomplished amateur and organist of the M. E. Church, Johnstown, Pa., explains itself:

"I am highly pleased with the Burdett Combination organ I purchased for my private use some months ago. I have never played Reed Organs before that possessed such a round mellow tone and for variety it is all that I could desire. Indeed I could not have believed it possible to produce such perfect tones from reeds, if I had not heard it for myself. The voicing of the solo pipe is exquisite, and in a full organ the effect is more like a large pipe organ than any instrument I have ever played. I can heartily recommend the Burdett to any person that wants a first-class organ. Yours truly.

SAMUEL DOUBT.

The above fine instrument was purchased at H. Kleber and Bro's. the general agents for the Burdett, and who may be found at 122 Wood street.

BY MAIL FROM ABRAOD.

The manuscript of Alexandre Dumas' "Three Guardsmen" is offered for sale by a Brussels antiquarian, for the sum of $250.

One of the French journals says that a society has been formed in Paris, now numbering more than a hundred members each of whom declares that it is his wish that his body, after death, be used for the promotion of anatomical science.

The fortune of Miss Burdett Coutts, recently raised to the peerage by Queen Victoria, is estimated at £10,000,000. She has given to charitable purposes not less than £5,000,000, and will leave large bequests to benevolent institutions after her death.

One of the grandest toilets worn at a recent drawing-room of the Queen at Buckingham Palace was that of Lady Poltimore, which attracted peculiar interest by the fact that the magnificent point d'Alencon veil her ladyship wore was worn by Marie Antoinette on the occasion of her marriage to Louis XVI. It is a priceless relic.

It is stated this year that foreign tobacco has been sold and smoked in Havana, and also that Florida tobacco has been imported there, manufactured into cigars, and then sent abroad again as legitimate Vuelta Abajo. A correspondent says the future of Florida as a tobacco growing country is far more likely than that of Cuba.

One of the effects of the Prussian occupation of the Champagne district has been to increase enormously the exports of brandy to England. The bonded stock of brandy there now amounts to nearly 13,000,000 gallons; the bonded stock to the end of last quarter amounted to upward of 4,500,000 gallons more than the previous year, and these enormous imports still continue on the same scale.

The injury sustained by the cross on the spire of the Strasbourg Cathedral has been repaired. It was a difficult and dangerous undertaking. It will be remembered that a missile from the besiegers accidentally struck the cross, a few minutes after 12 o'clock, M. on the 13th of September. This was a shell aimed from a distance of 6,500 meters, and which to strike the cross, had to ascend nearly 500 feet in the air.

Miss Parsons (now Princess von Lynar) will be one of the several American Princesses within the new German "Reich," taking position as such after Miss Leclercq, of Baltimore, the widow of Prince Felix, a cadet of the mediatized and mediæval house of Salm Salm, and Miss Lee, of New York, the widow of the Prince Nace, a scion of the royal house, of Holstein Gettrop, actually reigning to-day, on the thrones of Denmark and Greece.

The fall of the Vendome column is waking a host of memories connected with it, but one, the saddest of all, remains untold. When the frail life of the young Duke of Reichstadt was fading fast, and not even the fear of approaching death could wean him from continuous study of his illustrious father and the Empire, one of the Austrian courtiers, *en route* for Paris, approached to bid him adieu. The old light came back into the wan face of the dying Napoleon as he answered so sadly, "I know no one in Paris; but salute for me the column in the Place Vendome, and walk backward as you leave it."

STATE POLITICS.

In Crawford county, the vote on repealing the Crawford county system was almost unanimously against it.

York county gives a fine illustration of the economy of Democratic management. The Democrats have always had the management of county affairs there, and the county debt is $328,000.

The Republican primary elections in Snyder county will be held on Saturday, 17th inst. The party will also decide by vote at the same time whether they will retain the Crawford county system or adopt the delegate system.

The West Chester *Jeffersonian*, alluding to the platform adopted by its party friends, says the ninth resolution endorsing negro suffrage was "*forced in by a political ring contrary to the best judgment of a large majority of the Democrats present.*"

The Crawford county primary elections were held on Saturday, and resulted in the election of the following candidates: Assembly, Dr. John H. Gray and W. B. Gleason; Treasurer, L. H. Metcalf; Auditor, D. D. Williams; Commissioner, Titus Ridgway.

The Blair county *Radical* says: The Democracy of this county are casting about for men willing to sacrifice themselves for the good of the party, but since the surrender to the Republican party none seem willing to run on a Republican platform against a regularly nominated Republican candidate.

AN ALLIGATOR STORY.

Steamer Surrounded by an Army of Alligators.

[From the Pilatka (Flor.) Herald.]

A gentleman who has been stopping in our midst for some time gave an account of one of the most terrible scenes ever recorded in the annals of this country. While steaming up the placid waters of the Ocklawaha river, he witnessed a conflict, which made his hair stand on end, and never to be forgotten. After rounding Sackett's Point the stream widens and deepens, and the water at this bend always looked troubled and black. Suddenly the steamer encountered a sea of alligators floundering and splashing water in every direction. Their bellowing shook the foundation of the waters. The captain says that he never heard or witnessed such a scene before and never wishes to again. Before the speed of the little steamer could be checked they found themselves in the midst of these terrible monsters. To back or go ahead was impossible. The passengers endeavored to drive them away by shooting, and the hands on board beat them with handspikes, yet they seemed the more determined to obstruct the passage of the boat. The situation every moment became more critical, and the crew and passengers more and more exhausted, and the destruction of the boat seemed inevitable. Already three colored hands had been devoured by these terrible monsters and several others wounded. Several planks were torn from the hull, and the steamer was with difficulty kept from sinking. Just at this period a source of relief came. A huge serpent appeared, making his way from the lakes.—the same, it is supposed, that was seen at "Devil's Elbow" last fall. The alligators soon disappeared, following the sea devil, or whatever you may call him, and such fighting never was witnessed. At that point below, where the river suddenly narrows, it soon became blocked with dead alligators and the water was red with blood. It is difficult to account for the number and sudden appearance of these animals, but the latest theory may throw some light upon the subject. It is believed by many that there is a large subterranean passage of water between the head waters of the Ocklawaha and the waters of the Okeechobee Lake, and that these monsters have found their way here in great numbers, and if not soon exterminated, will obstruct the navigation of the Ocklawaha.

A Contest Between Two Curiosities in a Museum.

The St. Louis *Democrat* of the 5th says: "Quite an excitement was occasioned in Hutchings' Fourth street museum, between 4 and 5 o'clock last evening, by an attack made on the leopard by the 'Australian Child.' The keeper of the 'wild girl' and other wild animals was looking through the various rooms, and for a moment left one of the connecting doors open. The Australian child, who appears to be a happy combination of human, kangaroo and monkey, took advantage of the opportunity to escape, and, slipping through the door, crawled downstairs. On the road to freedom she discovered the cage containing the leopard, and, having for a long time felt a desire to rend something, concluded to knock the spots off the beast as he quietly reclined in one corner of his den. The leopard waited until she came within reach, when, with a snarl, he flung himself against the bars, and reaching through between them, fastened his claw in her head. The girl screamed and tried to get away, while the leopard held her fast and endeavored to drag her through into the cage. This he would have soon succeeded in doing, although he would have found it necessary to take the girl apart and move her by pieces. Mr. James Wood, the manager, heard the struggle, and rushed up in time to rescue her, although in doing so his hands were badly lacerated by the brute's claws. The child's head and shoulders were deeply furrowed, and, as the wounds bled profusely, they were at first supposed to be of a dangerous character. Dr. Wilson was called, and, after bandaging them, expressed the belief that a few days' quiet would effect a cure."

Steinway Sales--Bulletin No. 31.

The following sales of the famous Steinway pianos were made since publication of last bulletin:

Mrs. K. Carter bought a Steinway square piano; R. F. Bauman, Esq., a Steinway square; John C. Porter, Esq., a Steinway double round; Mr. Ahl, a Steinway square, &c., &c.

We have been credibly informed that in many of the principal cities of this country the Steinway pianos command full list prices. This is the case in Chicago, St. Louis, Buffalo, and even in Philadelphia. It must be gratifying to our public to know that the general agents for this section, Messrs. Kleber & Bro., can, and do sell this unrivalled make of pianos for less than they can possibly be bought for in any other city. Our own Pittsburgh folks want the best only, but are not willing to pay fancy prices, and hence, having adopted the small profit plan the Messrs. Kleber manage to sell some seven Steinway pianos per week. And, who would not prefer a first-class Steinway when obtainable at no higher figures than many second-class pianos are sold for.

"John Brown's body lies mouldering in the grave," but perhaps it wouldn't if the agitator had known the soothing effects of Pier, Dannals & Co's. cream ale.

LOUISVILLE
CEMENT.
The Best--The Cheapest.
The Cement has acquired the reputation as the first in the country in hydraulic strength and uniform reliability.
It is now in general use from the lakes to the Gulf, most of the public works in the West and South being constructed with it.
The mills at Louisville having been enlarged and improved, can supply any demand, and though the Cement has always, for 30 years brought higher prices than competing brands, it is from this time the determination of the manufacturers in order to largely increase the sale and extend the use of their Cement, to furnish it in the principal markets at prices which make it the most available and economical for all classes of work.
The large capacity of this Cement for taking sand renders it much the cheapest that can be used for buildings of any kind.
At the reduced prices in Pittsburgh its cost is not much above common lime, which makes it unquestionably to the interest of owners and builders that the foundation of every good house should be laid in this Cement.
A large stock of fresh Cement has just been received by barges from Louisville, and is offered at greatly reduced prices by the following dealers:

NEW ADVERTISEMENTS.

THE
New Orleans,
Mobile and Texas
RAILROAD CO.
Are building a Trunk Line, connecting New Orleans with Mobile on the east, and giving the
Only Railroad Connection
between the former city and the great and most productive State of Texas on the west, the total distance from Mobile to Houston being 475 miles.
The Company is composed of strong Northern capitalists, who have already expended nearly TEN MILLION DOLLARS of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles constituting the Texas division leaving but 140 miles to be built
To Complete the Entire Road.
It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.
The Company now offer for sale the
Eight per Cent. Mortgage Bonds
upon the Louisiana division of 226⅛ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.
So important is this road considered to Louisiana that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and by subscriptions to the Stock of the Company, amounting in all to over eight million dollars.
The Bonds now offered are of two classes:
First Mortgage Bonds,
to the amount of $12,500 per mile, and
Second Mortgage Bonds,
to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscriber can take their choice.
The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.
NO BETTER SECURITY
Has Been Offered
to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser
More than 77 Per Cent.
greater annual interest than the same amount invested in the new Government Five per Cents. At the same price an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payments in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent., an 8 per cent. currency bond at 90 will give a return of $2,614.18 more than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.
The bonds are dated May 1, 1871. The first coupon will, therefore, be fractional, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1 to date of remittance.
Subscriptions will be received in Pittsburgh by
Messrs. S. McClean & Co.,
BANKERS.
Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

7-30 GOLD LOAN
OF THE
Northern Pacific Railroad.
RAPID PROGRESS OF THE WORK.
The building of the Northern Pacific Railroad, (begun July last,) is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 266 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track-laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul & Pacific Road, the Northern Pacific Company now has 413 miles of completed road, and by September next will have at least 566.
A GOOD INVESTMENT.—Jay Cooke & Co. are now selling, and unhesitatingly recommend, as a profitable and perfectly safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest, (more than 8 per cent. currency) and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the road is completed, on 23,000 ACRES OF LAND to every mile of track, or 500 acres for each $1,000 bond. They are exempt from U. S. Tax; principal and interest are payable in gold. Denominations: Coupons, $100 to $1,000; Registered, $100 to $10,000.
LANDS FOR BONDS.—Northern Pacific 7-30's are at all times receivable at TEN PER CENT. ABOVE PAR, in exchange for the Company's lands, at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.
SINKING FUND.—The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company. The land grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment accessible to the people which is more PROFITABLE OR SAFE.
EXCHANGING U. S. FIVE-TWENTIES.—The success of the New Government 5 per cent. Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.
OTHER SECURITIES.—All marketable Stocks and Bonds will be received at their highest current prices in exchange for Northern Pacific Seven-Thirties. EXPRESS CHARGES on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned. For sale by

IN BOSTON, in New York and perhaps in other American cities, there are what are called flower charities. Flowers and fruits are begged or bought by the active members of the society, and distributed among the invalid poor. In this way many a gloomy room is brightened, many a weary heart gains moments of pleasant rest, and many a last hour in this world of sorrows is rendered so beautiful and cheering as to be a fit point for celestial memories to revert to without sorrow. A flower or a little fruit is not much in itself, but like other little things, it can be made of importance. To us this Flower charity appears to be a beautiful and a noble one, worthy of being imitated in every city and town, where poverty and pain have found lodgings together.

THE leading Democratic paper of the country declares that the Confederacy has been dead so long, that the smell emitted from its "tomb,' is very offensive. By which it means, we suppose, that if it were only alive, its odor would be fragrant. But as it is buried, its "ashes" should be allowed "to rest in peace." It is a breach of decorum to attempt to "exhume its carcass when decomposition and rottenness have asserted their empire. Such breaches of decorum", continues our Democratic contemporary, "are reserved for arrogant brawlers like Toombs, and arrant egotists like Davis; men who always cared much for themselves, and little for any cause except as a ladder for their ambition," which, we may add, are the characteristics of Democrats generally.

THERE are some amusing things even among the sombre affairs of France. It would seem that one of the really great deeds of Napoleon the Third was the furnishing of lucrative employment for the great masses of laboring men, who have always formed the dangerous class in France. Yet the *Official Journal* of Paris ascribes the blame for all the horrors and bloodshed of the recently quelled insurrection to Napoleon, who, it says, congregated three hundred thousand workmen in the capital. Are the Garibaldi and the Mary Ann societies, spoken of in the book of the prophet Benjamin Disraeli, to have the honor of having splashed this great blot of blood on the page of contemporaneous history taken from them? No, let even his Satanic Majesty have that which belongs to him. Napoleon brought the men to Paris and gave them work, and it was not until their employer was disposed of and bread became a doubtful possession, that they listened to the insinuating and seductive strains of the gore-drenched Mary Ann.

NOT only is the secession cause dead beyond the possibility of revival, but all its original advisers and leading abettors are equally dead and discredited in a political sense.—*New York World.*

If all the "original advisers and leading abettors" of secession are "dead and discredited in a political sense," where, we ask, is the Democratic party? Did they not give aid and comfort to the South during all the long and bloody years of the rebellion? They declared the South could never be conquered, and in deliberate national convention pronounced the "war a failure." No journal in the land took a more active part in aiding and abetting secession than the one from which we clip the above. If it had not been for the aid rendered by such papers as the New York *World*, and almost the entire rank and file of the Democratic party, the rebellion would have collapsed in a few short months. The only reward they have for their ill-advised and suicidal conduct is the melancholy pleasure of writing their own epitaph as above. Never did the *World* utter truer words than those which stand at the head of this paragraph. The Democratic party which advised and abetted secession is now "dead beyond the possibility of revival." No new departure can give it re-animation, so says the *World*, and it knows.

WITHIN a short time three anonymous publications have met with enormous success in England. These three were on widely different subjects and yet met with almost equal success. The first, *Ecce Homo*, treating upon religous affairs went through very many editions and was republished and translated in many different lands; nor was it until after it had become familiar in all parts of the civilized world that Professor Seeley acknowledged himself as the author. The Fight in Dame Europa's School, an allegorical treatment of foreign political matters had an equally great, though more sudden and doubtless more ephemeral reputation, and its clerical author suffered but little time to elapse before he claimed his unexpected laurels. And now Ginx's Baby, that much talked about foundling, with a socially scientific moral, has been claimed by the author of its being who is doubtless proud of the bantling which has achieved such renown. He is Edward Jenkins, the son of a Presbyterian clergyman of Montreal, is thirty-two years old, and a briefless London barrister. With the exception of Mr. Darwin's productions anonymous books seem to be the most popular in England, while in this country scarcely anything without some name to it has made a sensation since the appearance of Nothing to Wear.

IT IS SAID that Mrs. Laura Fair, sitting before her mirror, is wont to exclaim "I am prettier than ever before, I am too pretty to be hung." This idea that female loveliness or female weakness should be sufficient to prevent the conviction of a murderess, or the execution of the sentence of the law upon her if she should be convicted, has long prevailed among many persons besides Mrs. Fair. It did not prevent the hanging in this city of Charlotte Jones, or Mrs. Grinder, but in newer and less conservative neighborhoods, and even in some of the older States women, whose guilt was proven have escaped punishment because they were women. But we do not think that Mrs. Fair will escape, partly because the whole country has become so disgusted with the details of her crimes, and the popular voice demands that they shall be expiated; partly also because the womens' suffrage movement has brought many abandoned women to the surface, mingling their loud voices with those of the really earnest, honest advocates of that movement, and thrusting their own lewd opinions into the view of quiet, orthodox people that there seems to be a very general desire that one of them should meet with her deserts, in hopes, that as the dead hawk nailed upon the barn door is supposed to serve as a warning to his fellows, a vile woman publicly executed, may warn her counterparts as to induce them to withdraw from the public gaze.

THE concession of a third Senator to Allegheny county, although we were fairly entitled thereto, was not easily obtained. It required all the skill, persistence and firmness which our Representatives at Harrisburg could muster to secure it, backed up, as they were, by a considerable outside influence. It was only when the Democratic Senators realized that the demand of Allegheny to her fair share of representation in the Senate would be insisted on as an ultimatum, that they yielded, rather than take the responsibility of adjourning without passing an Apportionment bill.

This concession to Allegheny county, when finally arranged, necessarily led to the recasting of some of the other Senatorial districts. Senator Kerr, of Butler, being one of the outgoing Senators, his old district should properly have held an election this fall for a successor; but in the recasting of districts consequent upon giving Allegheny two Senators to be chosen this year, this was found to be impossible. Butler county was therefore added to the Washington and Beaver district, which elects next year.

And here we may properly add a word of commendation to Senator Kerr, of Butler, who has just closed his three years of service, with credit to himself and acceptably to his people. During the last winter he stood firmly and resolutely by his party friends, who had a difficult and unpleasant task to perform in resisting the accidental Democratic majority in the Senate. He bore his part manfully during a session protracted almost beyond endurance by the Democratic majority, and is entitled, not merely to the grateful remembrance of his constituents, but to the thanks of his party friends throughout the State.

Last year we were led, by the prevalence of rumors injurious to his political integrity, to give place in our columns to charges against him which seriously compromised him. We are now sincerely glad to learn that these charges have been proven unfounded, and that he leaves the Senate without a stain upon his reputation. This statement is fairly due to Mr. Kerr, and we cheerfully tender it. We are sorry Butler county is to be left, next winter, without an immediate representative in the Senate; but her turn will come in due season, and in the meantime she will be creditably represented by Senator Rutnan.

WHEN the emancipation of four millions of slaves was first mooted, the Democrats sent up a fearful wail of despair. They alleged that the negroes, as soon as they would receive their freedom, would all come North, and the Southern plantations would be turned into a barren wilderness. They predicted that white men would be turned out of rolling mills, foundries and workshops, and that no place would be found for them in which to ply their honest toil, except at starvation wages. The results do not verify the prediction. The cotton product of the South bids fair to be much greater than ever it was before the liberation and enfranchisement of the slaves. The price of labor has not been reduced in consequence of their emancipation, nor have they shown any disposition to work for lower wages than white men. A few days ago the negroes of Washington struck for higher wages, which were refused, and, wonderful to relate, white men were easily obtained who willingly took their places at figures which they would not accept. This journal labored with all its ability to show that the feared consequences would never take place, and that emancipation would not result in disaster to the interests of the white laborer. The recent events in Washington have demonstrated that we were not mistaken in our judgment. The whites have been the first to show a disposition to work at low wages. The black men are apt scholars. They seem to be making great progress in all the arts and tricks in trade of the whites. There is not much danger of their "cutting under," if the Washington case may be received as a test sample.

The Democratic journals are endeavoring to make a political handle out of the Washington strike. But surely they will not claim that the colored laborers have done more in this case than white ones have frequently done in others. We are not, by any means, the apologists of any violence in word or action that may have been committed by the colored laborers. In all cases we are opposed to strikes. They never result in any good to the strikers. The demand for labor will regulate its price, and if employees do not wish to work at the wages offered, they should quietly withdraw, create no disturbance and seek for more remunerative employment somewhere else. Our only object in referring to the matter, is to show that the predictions of the Democracy have not proved true, and that the fear that the emancipated slaves would work for less wages than white men was utterly groundless. We do not think there are more colored men in our workshops and factories now than there were before the war. They generally prefer the South, and are likely to remain there.

RELIGIOUS INTELLIGENCE.

Among the great questions before the General Assembly of the Presbyterian Church, in Chicago, perhaps the most important, was that of arranging and locating the benevolent board of the Church. The telegrams of the daily proceedings, not being clear and satisfactory, we propose, briefly, to state the action. The committee of twenty-one, appointed by the preceeding General Assembly to consider the subject and report, recommended in their report the consolidation of all the benevolent boards into three, and locating them in New York, with one grand central treasury. When the subject came up for action, strong opposition was developed by the friends of Philadelphia, and the report was tabled. Other plans were then suggested as compromise measures, but final action was deferred. The last day of the session, the supporters of the New York scheme succeeded in taking from the table the report which had been laid there the previous Monday. An effort was made to refer parts of the report to a committee, which would have kept the church agitated for another year, but after a sharp discussion, it was shown that the majority of the commissioners were already against a central treasury and consolidation features of the report, and it would be a serious violation of parliamentary honor and comity, in view of so many delegates having left for home, to agree to the plan proposed, the whole subject was finally laid on the table by a strong majority. The report of the committee of twenty one was neither adopted nor kept alive for consolidation another year. The boards remain as they were. The Publication, the Education, and the Ministerial Relief, continues in Philadelphia, the former with enlarged powers to promote the Sunday School cause.

The will of Bishop Clark, of the Methodist Episcopal church, who recently died in Cincinnati, has been admitted to probate. After leaving the family residence, furniture, library, etc., and ten thousand dollars to his wife, and nearly fifty thousand dollars to his five children, the balance of his estate is divided into four equal parts, his wife receiving one-fourth, and the remainder goes to benevolent purposes of the Methodist Episcopal church. The estate is valued at one hundred and twenty thousand dollars.

Notwithstanding the unhappy controversey among the members of the American and Foreign Christian Union, the organization remains intact, and the new officers are determined to carry forward the operations of the Society with vigor. The controversey was caused chiefly by a change in the executive officers.

The *Christian Union* represents that the practice of the Society of Friends, in making marriage with a non-member a ground of expulsion, has of late years been modified in this regard. An instance is given in a New England community, of a member having married out of the Society, who was simply notified that it was customary in such cases to retain the member in full connection, upon his formally expressing a wish to that effect. The *Union* expresses the hope that this liberal spirit will prevail among the Friends throughout the country.

The Methodist (Protestant) General Conference in this city, got over the *difficulty* of electing a layman as President, much easier than the Presbyterians at the General Assembly in Chicago. The chief "legal" difficulty to the election of a layman as Moderator, when Gov. Pollock was nominated was, that an elder could not open the next General Assembly with a sermon. Custom not law, we presume, makes it desirable to open the General Assembly with a sermon and nothing more.

The *Independent*, referring to the frequent changes in the Baptist Churches of Massachusetts, thinks "the Baptists believe in a floating if not an itinerant ministry." Of the two hundred and four pastors settled in 1860, only sixteen were pastors of churches in 1870. Two-thirds have held their pastorates less than three years.

An effort was made at the late Presbyterian General Assembly to abolish the order of "stated supply," a feature more popular with the churches than with the Presbyteries. It is said, out of the four thousand ministers, only sixteen hundred are settled pastors, while eleven hundred are "stated supplies." Supplies are hired by the trustees, while pastors are installed by Presbyteries.

Considerable temper has been aroused among the Baptists, at the weakness manifested at Chicago, after having voted to educate white and black children together, to reconsider the action out of respect for the Southerners, and defeat it for the *sake of unity* in the denomination.

The *Independent* of last week contains some *tart* lines upon the Methodist Book Concern Carlton-Lanahan trouble. It claims to have "let the cat out," and by so doing, incurred the displeasure of the official press of that denomination.

At the recent session of the Reformed Presbyterian Synod in Philadelphia, a Rev. Mr. Woodside, of Brooklyn, charged the religious press with slander and abuse, and called upon the Synod to take action to terrify its enemies. Muzzeling the religious or secular press, is not an easy matter,—at least multitudes have tried it faithful.

The election of delegates to the General Conference of the Methodist Episcopal Church, to be held in Brooklyn, in May, 1872, took place last week in Maine. The election of the two laymen, were the first lay delegates ever elected to a General Conference. Bishop Ames delivered an address on the occasion, in which he said. He welcomed lay delegation cheerfully, hopefully. He had never distrusted the laity. No other church, he claimed, had such a body of laymen, having twenty-eight office bearers for every pastor in the Church, what others could equal this? He regarded this as an advance movement. Not every advance was progress. This was progress. He could and did earnestly offer the prayer, "The Lord our God be with us, as he was with our fathers from the beginning."

George H. Stewart Esq., of Philadelphia, sent a congratulatory telegram to Rev. Dr. Humphreys, on his election as Moderator of the Presbyterian General Assembly, in which he expressed the hope that the day is not far distant when the Presbyterian Church shall have but one Assembly, as it has but one name, one Lord, and one Faith.

Dickinson College.

This ancient and time-honored Institution of learning was founded in 1783, and in a history of now nearly a hundred years can boast of a long line of illustious, Presidents, Professors, and graduates. It has ever been a centre of intellectual light and moral power. One peculiarity of this Institution is, that although under the patronage distinctively of the M. E. Church, such is the *broadness* of the system of instruction, and such the thoroughness and comprehensiveness, of its educational plans, it can number among its students and supporters from other denomination a greater proportion, perhaps, than any denominational school in the land. The commencement exercises, which came off this week, were of the most deeply interesting character. The Trustees, numbering about forty, were nearly all present. As usual on their annual celebrations, very many visitors from a distance were also present, and never did the people of Carlisle seem more interested.

On Tuesday evening the College Church was crowded to its utmost capacity by trustees, faculty, students, citizens and visitors, to hear the annual oration delivered by the Rev. Benj. F. Brooke, before the Belles Lettres and Union Philosophical Societies of the College. He announced as his subject: *The Resources and Responsibilities of American Educated Young Men.* The oration was pronounced by general consent, one of great beauty and power; many of its passages not only eloquent but sublime. His description of America *physically* considered was very fine. Then he invited attention to the *ethnographical constituents* of the American nation, and discussed three questions. 1. The *Political* conditions of America as effected by its ethnographical developments. 2. The *Literary* destiny of America as influenced by the *mixture of races.* 3. The *Religious* position of America, and its historical destiny in pushing forward the three great powers of the world—*Freedom, Civilization and Christianity.*

The subject of responsibility connected with American educated young men was handled with admirable skill and eloquence. We withhold the analysis of this part of the address, hoping soon to see it in print, as a copy of it has been requested for publication.

On Thursday the commencement exercises took place, when the following were graduated to the degree of A. B.

Graduating Class—W. L. Avis, of Virginia; J. M. Belford, Pa.; D. K. Boas, Pa.; G. R. Bristor, Md.; H. W. Crouse, Pa.; W. H. Dashiell, D. C.; O. L. Haddock, Phila.; C. S. Harrison, Md.; W. A. Himes, Pa.; D. P. Lefever, Pa.; S. Long, Pa.; F. A. Riggin, Md.; J. L. Shelly, Pa.; M. F. Thompson, Pa.; D. K. Watson, Ohio; W. R. Woodward, D. C.

The Degree of Doctor of Divinity was conferred at the same time on the Rev. Benj. F. Brooke, of Christ Church, Allegheny City, and Rev. Edwin A. Johnson Associate Editor of the *Christian Advocate* of this city. While these degrees will not add to the high estimation in which the recipients are held among us, they were worthily conferred, and will be as worthily and modestly worn. We hope Dr. Brooke will respond favorably to the earnest request of the Belles Lettres Society for a copy of his address, of which they say, "it was very able and eloquent, and should be printed for circulation." His many admirers here and elsewhere, we are sure, would be gratified to be able to read an address which was listened to by so large and enlightened an audience at Carlisle, with wrapt attention, and in which the author seemed to achieve what it would be perilous for another to attempt, viz: to surpass himself. We shall hope to see the address in print.

Petroleum.

[From the Philadelphia Ledger.]

Cleveland, to the surprise of many, has become the most important centre in the country in the refining of petroleum. It is, in this particular business, running quite ahead of this city and of Pittsburgh, at both of which places the trade was formerly quite large. This is not a little surprising when we call to mind the fact that the crude oil refined at Cleveland is found in the northwestern part of Pennsylvania, and is carried thence a long way west from the great source of production and from the market, to the city on the lake. The only substantial reason given for this is, that the through railway carrying companies charge but $1,75 per barrel for oil shipped from Cleveland to New York, while from Venango, the point of production of the crude oil, the shipping charge to the Atlantic seaboard is $1,85 per bbl. There may be other reasons, not in control of the great lines that compete through, for this difference in the freight charges, such as high tolls by local lines connecting with the through lines, and the speculations of the large dealers at New York who control the oil market by frequent fluctuations, and build up and break down refining centres almost at pleasure. The fact, however, of lower prices for the longer distance of carriage is a thing worthy the consideration of towns and cities lying nearest the great markets. There ought not to exist any such difference in the cost of transportation by different competing lines that will warrant the expense of shipping the crude material a hundred miles or more inland to be retransported back over the same route to a market. There is something wrong which must be easy of correction where a trade of this kind exists. Philadelphia, through her Pennsylvania Railroad, ought to have the greater part of this trade, and it may be, when its contemplated arrangements in railway connections and the establishment of a line or lines of trans-atlantic steamships are perfected, that it will be so. Draining the great oil regions of the State, on both its north and south sides, as the Pennsylvania Railroad, through its own immediate road and its control of the Philadelphia and Erie, does, there is no reason that the traffic in petroleum should not, aided by the shorter distance, be brought to a very large extent to and through Philadelphia.

THE Plover (Wis.) *Times* says: "Spring and winter wheat in this vicinity never looked better."

THE STRONGEST TESTIMONY

Of any to be found in favor of any medicine that we have ever known, is that which we have recorded in the GAZETTE for the past year corroboastive of the extraordinary powers of DR. KEYSER'S BLOOD SEARCHER. Not simply here or there a case that set at naught all other tried remedies and compunds, but cases in every part of the city or vicinity, whose violence had defied every known means of cure. DR. KEYSER'S BLOOD SEARCHER seems to possess almost talismanic virtues, equalled only by the extraordinary skill of the Doctor himself, when brought to bear against the inroads and ravages of disease. We have the pleasure herewith to append another certificate of cure by one of our most reliable citizens, which we commend to the notice of the afflicted:

To DR. GEO. H. KEYSER:

Sir: Permit me to return to you my sincere thanks for the time, labor and expense which you have given in the search of that great combination of curatives which you have so wisely concentrated in your unequalled BLOOD SEARCHER.

I have used it in my family for the past two years with unfailing success and am fully convinced that it saved the life of one member of my family.

In cases of debility, of scrofula, of diseases of the eye, or any disorganization of the digestive organs, or of the blood, it has no equal.

I cheerfully bear my unsolicited testimony to its efficacy and powerful curative properties, and would unhesitatingly recommend it to the afflicted.

JOHN H. SAWYER.

Sold by the Gross, Dozen, or Single Bottle, at Dr. Keyser's Great Medicine Store, 167 Liberty street. Dr. Keyser's Consultation Rooms for all obstinate chronic diseases in the rear of his great medicine store, 167 Liberty street, from 10 A. M. until 1 P. M., and from 3 to 6 P. M.

A PITIFUL CONDITION.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensuous pleasure to their more robust and energetic fellow-beings.

In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs rousing and strengthening: not merely for an hour or two, to sink afterwards into a more pitiable condition than ever, (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infuse new vigor into the digestive organs by a coarse of Hostetter's Stomach Bitters. Do not waste time in administering temporary remedies, but wake the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depend for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken, the feeble frame of the dyspeptic will begin to feel its benign influence. Appetite will be created, and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve, and brain, flows through the channels of circulation, instead of the watery pabulum with which they have heretofore been imperfectly nourished. my5

HELMBOLD'S
Fluid Extract Buchu
HAS ACQUIRED A
WORLD WIDE FAME.
All of my preparations are meritorious. A period of twenty years has PROVED THIS to be the case.
See remarks made by Benjamin Travers, F. R. C. S., &c. Speaking of those diseases, and diseases arising from the excess of mercury, he states that no remedy is equal to the extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic, with this invaluable attribute, that it is applicable to the state of the system so sunken, and yet so irritable as renders other substances of the tonic class unavailable or injurious.

I congratulate you on having the handsomest and at the same time the MOST EFFECTIVE PILL that I have ever known for the purposes intended.
WM. P. WARNER & CO.
H. T. HELMBOLD
Will remark in conclusion that his Remedies are the result of long and careful study. The Fluid Extracts have been before the public twenty years; the sale of them in that time proves their value. All have been benefitted by them who followed my instructions, and to-day they stand UNEQUALLED in the extent of their sales and UNSURPASSED by any Medicament in the Dispensary of the United States, not excepting a single HERB, ROOT, PLANT, or scientific preparation.
Pharmaceutical I claim all mine to be, and have never patented a single one.
All Stand on Their Merits.
The Pill I have thought of offering to the afflicted for ten years.
They are now perfect, and I shall stake my time, money and fame on their effectiveness. The inviting style in which the Pill itself is made, the bottle, label, wrapper, all show with what care they have been prepared. After examination, no English or French preparation will show greater care, and I am really proud of them.
Instead of the nauseous-looking, carelessly prepared Pills vended generally and put up in wooden boxes, and made generally or offered by those having no experience as physicians, druggists, or manufacturers of medicines.

Ayer's Sarsaparilla
FOR PURIFYING THE BLOOD.

A medicine that cures is a real public blessing. AYER'S SARSAPARILLA makes positive cure of a series of complaints, which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humors in the system, which undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter, Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation, and General Debility.* With their departure health returns.

HAIR
RENEWER.
Its Effect is
MIRACULOUS.
It is a perfect and wonderful article. Cures baldness. Makes hair grow. A better dressing than any "oil" or "pomatum." Softens brash, dry and wiry hair into Beautiful Silken Tresses. But, above all, the great wonder is the rapidity with which it restores GRAY HAIR TO ITS ORIGINAL COLOR.
The whitest and worst looking hair resumes its youthful beauty by its use. It does not dye the hair, but strikes at the root and fills it with new life and coloring matter.
The first application will do good, you will see the NATURAL COLOR returning every day, and
BEFORE YOU KNOW IT,
the old, gray, discolored appearance of the hair will be gone, giving place to lustrous, shining and beautiful locks.
Ask for Hall's Sicilian Hair Renewer, no other article is at all alike it in effect.

DR. WHITTIER
296 PENN STREET, PITTSBURGH, PA.
A regular Graduate of Medicine, as his Diploma at office shows, has been longer engaged in the treatment of Venereal, Sexual and Private Diseases than any other Physician in Pittsburgh.
Syphilis, Stricture, Orchitis, all forms of Hernia and Rupture, all Urinary Diseases and Syphilitic or Mercurial affections of the Throat, Skin or Bones are treated with unparalleled success.
Spermatorrhœa, Sexual Debility and Impotency, the result of self abuse in youth, sexual excesses in maturer years, or other causes, which produce some of the following effects, viz: Nervousness, debility, blotches, dizziness, dimness of sight, confusion of ideas, evil forebodings, aversion to society, loss of memory and sexual power, rendering marriage improper and life miserable, are permanently cured. Sealed pamphlet relating to the above sent for two stamps. Correspondence confidential, consultation free. It is self-evident that a Physician who treats thousands of cases every year must acquire great skill, many physicians knowing this, recommend patients to his care. Medicines sent everywhere.

MONEY AND COMMERCE.

NEW YORK, June 9, 1871.

Gold dull and weak at 112¾@112⅝. From 1 to 4 per cent was paid for carrying. Clearings about 58,000,000. Governments firm with small business. Stocks feverish in consequence of the heavy decline in Rock Island yesterday. The weakness in the market has induced the bears to sell largely and the bulls predict a sharp rally in prices. The only features in the market is Lake Shore and Rock Island, the former ranging between 112⅜ and 112⅞ and the latter between 121⅛ and 121. In the early part of the day there was some little activity in both these stocks but it subsided in the afternoon. Erie was the only stock that made any show of the bull movement and at one time rose to 131⅞. Other railway shares dull but without any important fluctuations. Money easy at 3 per cent. State bonds dull and without material change.

Sterling exchange 110⅛.

GOVERNMENT BONDS.—Coupons 1881, 117⅞, 5-20's '62, 112; '64, 112; '65, 112; new, 114⅛; '67, 114⅛; '68, 114⅛; 10-40's, 109⅞; currency 6's, 115⅛.

STATE BONDS.—Missouri 95⅜; Tennessee, old, 71½; do new 71⅛; Virginia new 73; do old 69⅝; N. C. old 47½; do new 26⅝.

MISCELLANEOUS.—Western Union Telegraph, 58⅝; Quicksilver, 13; Mariposa, 5; do preferred, 8⅜; Adams Express, 80; Wells & Fargo Express, 47; American Union do, 56; United States do, 54⅜; Pacific Mail, 43⅞; New York Central, 98⅝; Scrip, 93; Erie, 31⅛; do preferred, 56; Harlem, 133; do pref'red, 134; Reading, 116⅝; Michigan Central, 125; Cleveland & Pittsburgh, 119⅛; Northwestern, 85⅞; do preferred, 98⅛; Rock Island, 121; New Jersey Central, 111⅛; St. Paul, 61⅛; do preferred, 80⅛; Wabash, 63; do preferred, 81; Ft. Wayne, 99⅞; Terre Haute, 28; do preferred 59; Chicago & Alton, 119⅛; do preferred, 121; Ohio & Mississippi, 47⅞; C., C. & C., 89⅞; Baltimore & Ohio, 156; Lake Shore, 118⅛; Illinois Central, 136; Union Pacific, 32⅞; Central Pacific bonds, 102⅛; Union Pacific bonds, 91⅞.

—All the several statements implying any concert of action by Col. Scott and Commodore Vanderbilt looking to the control of either of the New York roads, separately, or in connection with the Pennsylvania railroad, we have sufficient authority for saying are without any foundation in fact. Other reports of the consolidation of the Reading railroad with the New Jersey Central, the Reading with the North Pennsylvania, of the New Jersey Central with the North Pennsylvania, of the North Pennsylvania with the Lehigh Valley, and some others of a like improbable character, we are assured by parties in interest, having the best means of knowing, are all and severally without foundation in fact, and no propositions of the character named are pending between any two or more of the companie alluded to. There may be a consolidation of roads one of these days, affording an outlet from this state to the New York market, but it will not be by the joining of any two of the above named companies, nor do we allude to the proposed leasing of the united companies of New Jersey to the Pennsylvania railroad company, but still a connection forming an outlet as named. The time is not yet for any plainer allusion.—*Phila. Ledger.*

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, June 9, 1871. }

ASHES—Common Soda Ash, 4⅛@4⅜; refined do. 4⅜@4⅝; Pearls, 9@9½; Pots, 7⅛@7⅜.

BUTTER—As noted in our last report, there is an improved demand for strictly prime, while common and inferior continues dull with a supply considerably in excess of the demand. The former may be fairly quoted at 15@16. Grease Butter unchanged at 9@10.

BEANS—There is some little inquiry for prime navy but common do not seem to be wanted at any price; the former may be quoted at $2.

BROOM CORN—Dull and unchanged.

BEESWAX—Is scarce and higher; quoted at 32@33.

COUNTRY BACON—Is hard to move unless very low figures are accepted: one of our packing houses has been buying a good many clear Sides within the past few days at 6 cts. In a jobbing way, shoulders may be quoted at at 6@6½ and hams at 10@12. Lard, 9@10.

CHEESE—Is weak though a fair trade for the season is reported; prime Goshen, 13½@14; prime factory, 12½@13; Dairy, 11@12.

CEMENT—Louisville, $2,50@2,75 per bbl. Rosendale, $4,00@4,50; Calcined Plaster, $4,25@4,50.

CANNED GOODS—We are reported sales of Tomatoes at $2½@2¾; and Corn at $2½@2¾. Peaches, $3,25@3,50 for 3 lb cans, and $2,25@2,50 for 2 lb cans.

CARBON OIL—Is firm and higher, though the jobbing trade, as is usually the case at this season of the year, does not amount to much. Standard brands may now be quoted at 24 cts—usual advance for small lots.

CORN MEAL—We can report small sales at 85@90 cts per bushel.

EGGS—Continue rather slow but the receipts are again falling off and prices are unchanged; 15 seems to be regarded as the ruling quotation, though some dealers are still trying to get 16. There is one thing certain, the demand is very light as compared with a month ago—we do not think there is one barrel sold now where there were three then. Eggs are never so much sought after during hot weather.

FLOUR—Is firm and some dealers have advanced prices, but, as yet, there is no general advance—there is no question, however, but what flour is, and has been for some time past, too low in this market when the prices in the west, the principal source of our supply, are taken into consideration, and it is also a fact that flour is too low for the price of wheat. We continue to quote red winter wheat at $7,00@7,25 and good choice spring extras at $7,00@7,25, although some dealers are holding about 25 cts per bbl higher. Rye Flour, small small sales, in store, at $6.

FRUITS—We are reported occasional small sales of green apples at $7@9 per bbl. Dried Fruit unchanged, and the supply is mostly of an inferior quality and hard to sell at any price. Turkey Prunes, 10c; Currants, 10c; Layer Raisins, $3 per box; Valencia's 13 cts per lb. Lemons, $6.50 per box; Oranges, re-packed $7.00.

FEATHERS—Quiet and unchanged; No. 1 live geese feathers, 74@75.

GRAIN—Wheat is in steady demand and limited supply but unchanged, $1,45@1.48 for red, and $1,55@1,58 for white, that is for fair to choice. Oats in fair demand and firm but unchanged, 60@62c buying and 63@64c selling—small lots, 65@68c; the feeling is gaining ground among dealers, that there is not likely to be any further advance here unless the markets both east and west improve, as this, at the present time, seems to be the highest market in the country—67@69 cts in Philadelphia, and 65@70 in New York. Corn is quiet and unchanged; sales 2 cars mixed ear, in bulk, at 65c; and 2 cars mixed shelled, also, in bulk at 67—prime yellow shelled may be quoted at 69@70c. The receipts of Rye continues very meagre and there does not seem to be much inquiry for it; however, dealers are paying $1 for small lots.

GROCERIES—The market is quiet and devoid of any new features worthy of special notice; trade although fair for the season, is not as active as it has been, nor is it to be expected.

COFFEE—Fancy Rio, 18½; Prime, 17½; Good, 16¾; Fair, 16; Roasting, 15½@16.

SYRUPS AND DRIPS—White Honey, 72; [illegible] 60; Elders, 72; Silver Drips, 60; Loverings, 60; Havemyer [illegible] grades, 45@55.

SUGARS—Choice New Orleans, 11¾; prime, 11½; good, 10¾; fully fair, 10½; Porto Rico Sugars, 10@11⅛; Cuba, 10@11; Demarara, 11¾@12¼.

REFINED SUGARS—Hard Sugars, 14; A Coffee, 13; "B," 12¾; Extra C, 12⅛; C, yellow, 12⅛.

MOLASSES—New Orleans, choice, 70; prime, 68; good, 65.

TEAS—Fancy Young Hyson, $1 40; Good, $1 [illegible]; Fair $1; lower grades down to 70cts. G. P. Fancy, $1 50; good, $1 25; fair, $1 10; Imperial Fancy, $1 40; good, $1 25; fair, $1; Oolong Fancy, $1 25; good, 80cts; fair, 60@70c; Souchong fancy, $1 20; good, 90c; fair, 70@80c; Japan Fancy, $1; good, 90c; fair, 75c.

RICE—Choice Carolina, 10c; prime, 9⅛c; good, 9c.

SPICES—Grain Pepper, 22c. Pimento, 17c. Cloves, 20c. Cassia, 55c.

HAY—The demand is better, the offerings continue light and, in consequence, prices are well maintained: sales of loose from country wagons at $15@23. Baled, on wharf, $17@19.

HUSKS—Quoted at 2½@2¾ cts.

HEMP—Rough Kentucky, $175 per ton; dressed, 14 cts per lb.

LIME—Sales of Cleveland at $2,25 per bbl and eastern at $1.75.

MILL FEED—Sales from store, in a jobbing way, at $1.40@1.50 for Bran; $1,65@1,85 for Middlings and $2.50 for oil meal.

OILS—Lard Oil continues dull and weak, and prices lower; we now quote No. 1 Extra at 83@85.

POTATOES—Old stock are coming in freely and the market is weak as the season is getting late and holders generally are anxious to realize. Western are offering at $1 by the car load, and prime Lake Shore Peach Blows at $1.10—from store may be quoted at $1.10@1,15 for former and $1.20@1,25 for latter. New crop scarce and higher with sales to-day at $7@7.50 per bbl.

PEA NUTS—Quiet and unchanged at 10@10½ cts.

PROVISIONS—Market is a shade firmer under the influence of late advices from the west, but, as yet, there is no general advance in prices here. Plain Shoulders, 7¼@7⅜; ribbed sides, 9; clear sides, 10; canvassed sugar cured shoulders, 10@10½; do hams, 14½@15½; Breakfast Bacon, canvassed 13; Dried Beef, 18@19. Lard, in tcs, 11½ cts; in kegs and buckets, 12¾. Mess Pork, $17.00@17.50.

POULTRY—Dull but unchanged; live Chickens by the coop, at 68@75 cts per pair.

SEEDS—There is little or no inquiry for either Clover or Timothy Seeds and the season may be regarded as over. Flaxseed is scarce and wanted—may be quoted firm at $2,20@2,25.

SUMAC—Sales Tennessee Sumac at 4¾ cts.

WILLOWS—Sales Kentucky willows at 10

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, June 9, 1871. }

There is but little that is really new to record in regard to Petroleum; the market, although very irregular seems to be strong, and while crude was reported a shade lower above with increased offerings to sell, there is no decline here as compared with yesterday. The feeling in regard to the future of the crude market is conflicting; some are disposed to think, in view of the recent heavy settlements which, of course, must lessen the demand, that there will soon be a reaction and lower prices; while others are inclined to believe that present prices will be maintained during the balance of the summer, though the opinion is pretty generally entertained that there is not likely to be any further advance. Refined is steady but quiet, with but comparatively little doing, and the demand is generally reported legitimate, the great proportion of the purchases being made direct by exporters for actual shipment.

CRUDE.

The sales in the aggregate were not as large as those of yesterday, but, as will be seen, prices for Pittsburgh deliveries were maintained.

PITTSBURGH IRON MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, June 9, 1871. }

The week under review, presents no new features. The metal market has been characterized by a steadiness in price, and a somewhat improved demand over the past two or three weeks. The purchases have been for moderate lots to keep up mixtures and assortments, and for these the manufacturers do not stand upon price, but pay the current rates willingly. The bar iron and nail trade partakes of the same nature at present. Jobbers and consumers buy only for current wants and prices continue steady, and no change is anticipated until the heavy demand for the fall trade sets in; which, if as heavy as present indications would seem to intimate, will most likely cause prices to stiffen.

The abundant promise of crops, the ease in financial circles, and the comparative lightness of stocks of all kinds in jobbers hands, makes the general outlook from the present stand point most favorable for a large and profitable trade.

Dry Goods.

NEW YORK, June 9. The market generally is devoid of life. There is some animation noticeable in cotton fabrics, especially bleached and unbleached goods, and prices are looking up, but the demand is more of a speculative nature than otherwise. Most classes of brown sheetings and shirtings are fully ⅛c higher, and hence it becomes useless to specify makes in detail in bleached muslins. Rascoggin AA have advanced to 19c; do L 16c; Bates XX 19c; Auburn A 15⅛c; Ballousesson 32c; Warren FF 19c; Lonsdale cambrics 22c; White Rock 15⅛c; Wessachumicon 13c; Sprague's fancy prints 10⅛@11c. The Androscoggin Company are making beautiful latteen in bleached and colored goods, which they sell at 14c. RIVER NEWS.

The weather continues clear and pleasant while the river remains unchanged.

No arrivals or departures, nor will there be any until there is a rise, of which there is very little prospect at present.

Com. W. J. Kountz left for St. Louis on Thursday.

The Mollie Ebert and towboats Hornet, Samson and Baltic were at Cairo on Thursday, and the Glencoe was at Vicksburg the same day.

It is understood that lock No. 2, on the Monongahela river, will be open for business on Monday.

Boats laid up at this port: Arlington, Brill, Lorena and Messenger.

—We extract the following details in regard to the suicide of Capt. H. G. McComas from the New Orleans *Times* of Sunday: Captain H. G. McComas, of the steamer Lottawanna, on Thursday afternoon, at one o'clock, shot himself in the right temple, on board his boat, lying at the foot of Fourth street, and was removed to his residence No. 169 Phillip street, died yesterday afternoon at one o'clock. Coroner Creigh held the inquest when the following evidence was obtained: Russel Isham, mate of the Lottawanna, being duly sworn, said: "On Thursday, June 1st, about one o'clock, as I was coming out of a Tchoupitoulas street car, and going into my boarding house, at the corner of Fourth street I was overtaken by the steward of the boat, who said to hurry up to the boat, the old man has shot himself. I asked him what he meant. He said hurry, the Captain has shot himself; go on board quick. I ran to the dining room of the boarding house, and, calling the engineer, ran up to the boat, to the Captain's room, in the texas of the boat. He was lying on the floor, in front of the bed. The carpenter of the boat was near his head, putting a pillow under his head. I said, 'For God's sake, Captain, what does this mean?' He answered: 'I shot myself once; there is the pistol on the bed, and a letter; give it to my wife.' Then he said: 'Unfasten my drawers and take them off.' I did so. He said: 'God have mercy on me.'" The letter referred to is written on a letter sheet of the clerk's office, and reads as follows:

"My Dear Wife—Failure has destroyed my life. May God have mercy on my wife and children, and my soul. HARRY."

—At the meeting of the committee on law and claims of the common council Wednesday afternoon, the claim of Mr. John Hays, who had the contract for paving the public landing between Main and Broadway, was brought up by his attorney, Judge Mallon, and new terms of settlement proposed, the plaintiffs praying for a payment of $16,835, the sum first claimed as due with interest from July 10, 1870, and a recompense for his expenses in the prosecution of his claim. It will be remembered that Mr. Hays received the contract nearly two years ago, and the work was carried on under the supervision of a special agent appointed by the city. When stopped, the work for paving amounted to $26,835, upon which was paid $10,000. Failing in his several endeavors to obtain the balance due he brought suit against the city, claiming, first, the $16,835 due him on the amount of work done; second, $10,000 for the gain and profits which he would have made if he had been allowed to finish the paving of the whole landing, and $5,000 for loss of material purchased and expenses of adjusting contracts made for work; third, $3,000 for material lost by the sinking of flatboats during the delay occasioned by the stoppage of the work, amounting in all to $34,835. The committee took the matter under advisement.—*Cin. Chronicle.*

—Sioux City dispatches announce a heavy rise in the Missouri river at that port. It is probably the grand courier of the annual freshet on its way down from the regions of the Rocky Mountains. When it will reach here, and to what extent, remains still a problem, to be solved by the future. Reports from the far West represent the Missouri river as being higher that for many years past.

—The St. Louis *Republican* says: The event in river circles for the past few days has been the departure of several steamers—the Esperanza, E. H. Durfee and Silver Lake No. 4 among, with heavy cargoes of Indian goods bound for Fort Benton on the far upper Missouri. The Viola Belle is also of the upper Missouri fleet.

—The New Orleans *Times*, of Sunday, says: The wrecking boat Osage is engaged at the foot of Gravier street over the machinery and boilers of the steamer Julia A. Rudolph, which, it will be remembered, was destroyed, together with four other steamers, at the wharf by fire on the first of the present year.

—The H. C. Yeager was to have left New Orleans on Wednesday; among other items she has 3,000 bars railroad iron. Captain Van Hook and James Mellon chief clerk.

GRATES. GRATES.

Keep Your Houses Clean,

AND

SAVE FUEL,

BY USING THE

Wellman Patent Reflector

STOVE AND GRATE,

Which Stand Without a Rival.

The WELLMAN STOVE is furnished with the "REFLECTOR GRATE," and possesses all the advantages of an open fire place; it is specially adapted to houses where the flues are too small to admit a grate, and affords all the comforts of a CHEERFUL OPEN FIRE.

1st. As a radiator of heat it has *double* the intensity of any other grate.

2d. It is unquestionably the most cleanly—no soot or ashes escaping into the room—which, in the ordinary Grate, proves so detrimental to carpets and furniture.

3d. The combustion is *perfect*. There is no waste in unburnt cinders—every ounce of the fuel is so completely consumed, that nothing remains but the finest ashes.

4th. As an economizer of fuel—there being an *actual saving* of at least 25 per cent.

5th. It is highly ornamental.

6th. It is set so deep in the chimney, that it is much safer, and also less liable to puff in windy weather.

7th. A slight motion of the shaker cleanses the entire fire, and causes it to burn with great brilliancy and intensity of heat.

Samples may be seen and references had at the store of W. BARNES, corner of 3d avenue and Market street, Pittsburgh; W. F. GOODWIN, 66 Federal street, Allegheny, or at the FOUNDRY, corner Duquesne Way and Water street, Pittsburgh.

Parties who are building, or who contemplate changing Grates, are respectfully requested to examine "The Wellman." Satisfaction guaranteed in all cases.

Stevenson, Robt., Ligonier, Pa., 3c.

Valuable Present.—Hon. James Taylor, member of the Legislature, has presented the Lincoln club with a set (three volumes) of Bates' History of the Volunteers. The volumes are not easily obtained, and are therefore very valuable and the more highly appreciated. Mr. Taylor deserves thanks for thus placing the history accessible to all interested.

American Protestant Association.—The R. W. G. L. of the U. S. will hold its twenty-first annual session in this city at the Hall of Iron City Lodge, located at 52 Fifth avenue, commencing at 9 o'clock A. M. on Monday, the 12th inst. The American House, No. 344 Liberty street, near the Union Depot, will be made headquarters, where the officers may be found.
T. W. KIMBALL, R. W. G. S.

Pittsburgh Baptist Association.—The Thirty-second Annual Meeting of this body will be held at Sharpsburg, beginning to-day at ten o'clock, A. M. The annual sermon will be preached by Rev. Wm. M. Young, D.D., of the Union Church, Pittsburgh. The Sunday School Convention will be held this evening, and the childrens' meeting to-morrow, (Sunday afternoon.) As the meeting will be so near the city, it is expected that an unusually large number will be in attendance.

Loretto Springs.—It will be seen by by his advertisement that Mr. Francis H. Gibbons, proprietor of this charming mountain retreat will open it for the reception of visitors on the 1st proximo. Mr. Gibbons is ever busy in promoting the pleasure and comfort of his guests. The springs are in the midst of some of the grandest scenery in the State, and for salubrity and invigorating influences unsurpassed. Letters of inquiry will be promptly answered if addressed to F. H. Gibbons, Loretto, Cambria county, Pa.

Cadetship.—Josiah Holdship King, son of Alfred King of Erie, Pennsylvania, and graduate of the Central High School of this city, was admitted to the West Point Military Academy on the 2d inst. after a rigid and searching examination, in which twenty-two out of eighty candidates were rejected. We have a good deal of stock in this youth, and predict that his final examination will be as creditable as the first; that he will then, as now, not be in the list of rejected ones, and that in all his country's wars do battle on his country's side.

New Mission Church.—The United Presbyterians having determined to establish a mission church in the Eleventh ward of the city, the Rev. William J. Reid, one of the most eloquent and popular city pastors, will preach D. V. the opening sermon to-morrow (Sabbath) evening, at 7½ o'clock, in the Moorhead Public School Building, Granville street, which has been kindly granted for the purpose by the Directors, until a suitable church building can be erected. We urge all those in the upper wards who are favorable to the movement to be present to-morrow evening. Preaching may be expected every Sabbath evening at the same hour. Seats free and a hearty welcome to all.

The Fair and Festival

which has been in progress during the week at City Hall, in the interests of Grace Memorial Presbyterian Church, (colored) will be closed this evening. The ladies of the Third Presbyterian Church have provided a fine dinner, which will be served from and after twelve o'clock to-day. Those who seek their dinner at the hall to-day, and we hope hundred will do so, will find a thoroughly enjoyable banquet awaiting them. A number of fancy articles remain unsold. Some of these are very fine, and the prices asked are moderate. Let this day be a better one for the cause than any that have preceded it.

The Commissioners' Cases.

Commissioners Neely and McGee may be sentenced to-day, and much curiosity is felt as to what the sentence will be. It makes a great difference under which act they are punished—by the one they will get five years in the Penitentiary, by the other three months in jail.

It is said that Judge Stowe is of the opinion that the act of 1856 is in force, which provides for the light penalty. Judge Sterrett, it is understood, however, favors that of 1860—so the matter rests with Judge Collier, whose feelings are not known.

Before noon to-day, however, it is possible the matter will be decided.

Christian Moral Science.

The Rev. Dr. Cather, Corresponding Secretary of the Christian Moral Science Association, gave a dinner, prepared in most excellent style, at the Union Depot Hotel, to some thirty of the clergymen of the two cities, and then brought to their attention the importance of the new Association, whose organization he advocated. The matter was favorably considered, and it was proposed to hold an adjourned meeting at 4 P. M. on Sabbath afternoon to give it further consideration. A committee was appointed to make arrangements for this meeting, but the committee, on meeting and comparing views, deemed it best to defer having the meeting at present.

Revenue Cases Compromised.

Yesterday United States Attorney Swoope received information that the Revenue Department had compromised the following cases upon the terms as indicated. The offense charged against the companies was that they had all carried empty beer casks in their list of freight, upon which the United States stamp had not been obliterated. Pennsylvania Coal Company, $100 and costs; Delaware & Hudson Canal Company $200 and costs; Lehigh Valley Coal and Navigation Co., $100 and costs; Lehigh Valley Railroad $100 and costs; Lackawanna & Bloomsburg Railroad Co. $100 and costs; Delaware, Lackawanna & Western Railroad Co., $200 and costs.

The Press Excursion.

Yesterday morning, in accordance with previous arrangements, several of the members of the Western Press Association, together with many ladies and gentlemen of this city, started on an excursion over the Allegheny Valley Railroad and its connections, to Chatauqua Lake, N. Y., *via* the Oil Regions. The party, numbering eighty-two persons, left the Union Depot at eight o'clock in the morning on a special train, consisting of two Pullman palace cars, two coaches and a refreshment car, the latter abundantly stocked with provisions, etc. The train reached Oil City at 1:20 P. M., and proceeded to Titusville, where the party were to dine. The excursionists will probably return to this city this evening.

The Universal Atomizer

is the name of a new invention which is destined to become a very necessary luxury in the arrangements for the toilet. It consists of a small glass vial filled with cologne water or any perfumery, and attached to a rubber pipe, with a suction ball in the center, and a fine sleeve-like stopper at the end. The perfumed water by pressing the ball is drawn from the vial and thrown in a vapory jet upon the face—falling like the dew and as fragrant as the flowers.

Messrs. Lysles and Scroggins, the go-ahead proprietors of the Diamond Shaving Saloon, 61 Diamond, Allegheny, have procured a number of them for use in their establishment, and all their patrons hereafter will enjoy this additional luxury to a good shave.

Cane Presentation.

A pleasant affair occurred on Thursday evening last, at the Eighth U. P. Church, (Rev. John S. Sands, Pastor,) which will long be remembered by all who participated. For nearly six months past Mr. S. S. Friedly has been giving instructions in singing to a number of the congregation, and weekly meetings have been held at the church for that purpose. Thursday evening was the last meeting of the season, and the members presented Mr. Friedly with a handsome gold headed cane as a mark of their esteem and their appreciation of his kindness. The affair passed off pleasantly, and all enjoyed themselves. Mr. Friedly has labored in behalf of the congregation with great assiduity, and is well worthy of the good feeling manifested toward him.

A Bigamous Couple.

John Koersen made information before Mayor Callow yesterday morning charging his wife, to whom he has been married eight years, with having another husband living. It seems that John has been indulging in the pleasing pastime of spending a few days, at the Mayor's suggestion, at the work house for abusing his wife. Determined to get even with her he preferred the above mentioned charge upon which she was arrested, and upon giving bail was released. She immediately instituted proceedings against her liege lord, charging him with a similar crime and also complaining that he had deceived her at the time of their marriage by telling her that he had positive information of the death of her first husband.

Upon hearing her statement the Mayor caused a warrant to be issued for Koersen upon which he was arrested.

NEW NARROW GUAGE RAILWAY.

Meeting of the Friends of the Proposed Allegheny and Sewickley Railway.

A meeting of those interested in this proposed Railway was held in Bellevue School House on Thursday evening. The chair was occupied by Hon. D. N. White of Sewickley, and Mr. N. W. Shaffer, was appointed Secretary.

Quite a number of speeches setting forth the feasibility as well as the necessity of constructing such a road immediately were made by the friends of the movement, and the apparent interest manifested by so many was encouraging to those whose interests would be benefited by the road.

The following gentlemen were added to the list of Commissioners: Cochran Fleming, G. E. Warner, Minas Tindle, Commodore John Rogers, Wm. Reed, John A. Warden, James Bown, H. M. Boie, Noah Shaffer, John Phillips, Wm. Jackson.

A meeting of the corporators will be held at the Pittsburgh Savings Bank this afternoon.

A. P. A.

Thursday's Proceedings.

The Worthy Grand Lodge of the A. P. A. met Thursday morning at 9 o'clock.

Thirty representatives answered to their names at roll call.

The minutes of the last session were read and approved.

H. Y. Boyce, of No. 11, stated that he was appointed on a committee to investigate a charge pending against the W. G. Master, and asked to be excused from serving on that committee.

Mr. Boyce was excused and Geo. Ferguson appointed to fill the vacancy.

Committee on defining territory of Middle District reported, recommending that the Middle District be composed of Berks, Schuylkill, Northumberland, Dauphin, Carbon, Columbia, Lehigh, York, Lancaster, Lebanon, Snyder, Union, Montour, Franklin and Luzerne counties.

Report was received and the recommendation adopted.

The retiring Worthy Grand Master, James Alcorn, presented his valedictory address; a document worthy the heart and head of the man; it was read and as is usual, referred to a special committee.

The Committee on the report of the D. D. G. M. of Western Pennsylvania, make quite a lengthy and interesting report; congratulating the W. G. L., on the handsome increase of members during the last term, in the western district of Pennsylvania.

But by some means the committee forgot to state the fact, that at least ninety-eight per cent. of this gratifying increase was due to the zeal, and magnanimous action of Iron City Lodge, No. 36. A lodge comprised of some of the best men of the State, and whose charter was directed to be lifted, for doing the very thing over which this committee seem to be so pleasantly tickled.

Committee on communication from the ladies of Reading made a report, which was received.

On motion, a warrant was ordered to be drawn in favor of Wm. Penn Lodge No. 29 for $30 funeral benefits paid twice by order of the W. G. Lodge.

On motion, any action on the Constitution as recommended by the Committee in 1870 was indefinitely postponed, by a vote of 24 to 11.

No other business of importance was transacted when the hour of twelve o'clock arrived and the Lodge took a recess.

AFTERNOON SESSION.

The Lodge met at two o'clock.

Forty members present at roll call.

Minutes of morning session were read and approved.

On motion of Jas. Legon, the W. G. Master was instructed to promulgate a new password immediately.

P. W. G. M. Jas. Alcorn offered a resolution recommending the *Protestant Advocate*, of Reading, Pa., as worthy of the patronage of the members.

John Laughlin No 116, presented a communication asking the privilege to appeal to the R. W. G. Lodge of the United States against the actions of this W. G. Lodge in refusing to receive the credentials, and lawfully elected representatives of lodges Nos 25, 36, 46, said Lodges having been lawfully organized and officers installed in accordance with the laws of this Grand Lodge and of the R. W. G. Lodge of the United States, and no charge of insubordination having been lawfully preferred against them; and also against the election of officers and all other business that has been transacted in this Grand Lodge since the above Lodges have been denied their rights in this Grand Lodge. Said Lodges having paid all taxes due by them to both State and national Grand Lodges.

The privilege was unanimously accorded.

The committee on a charge preferred against Henry Berk, while acting as D. D. G. M., for misdemeanor in office, reported that the accused plead guilty; but under the circumstances, he was recommended to the mercy of the Grand Lodge. The report was accepted and the clemency of the lodge was extended as recommended by the committee.

The Secretary was instructed to print five hundred copies of the proceedings in English and one hundred copies in the German language.

The Grand Lodge officers were instructed to issue cards to any white members of Nos. 25, 36 and 46, who may apply. Carried.

It was resolved in substance that all lodges wishing to surrender their charter shall give public notice two weeks before doing so, and all members in good standing shall be retained on application for charter.

The above seems to allow lodges, Nos. 25. 36 and 46 the privilege of handing over their charters to the Grand Lodge, and then condescending to repetition for them and go on as they are now.

Bill of Trustees of Iron City Lodge, No. 36, was read and referred to the Insurance Committee.

The thanks of the Representatives from the East were tendered to the members of the Western district for their kind and hospitable entertainment.

The Insurance Committee made a report recommending the payment of sundry bills leaving a balance in the Treasury of about $734.

The minutes of the afternoon session were read and approved.

The labors of the W. G. Lodge being completed, Mr. Miller moved that this Worthy Grand Lodge now adjourn *sine die*, by singing the L. M. Doxology, before prayer by the Chaplain. The mover was requested to start the song as the W. G. M. did not know it. The Lodge then adjourned.

Corrections—Relative to lifting charter, should read 25 instead of 15, in proceedings of Wednesday also. The resolution offered by Mr. Bennett, should read, that no more proceedings of this W. G. Lodge shall be published, &c. Mr. Bennett, says that he used the word, falsehoods, instead of the word lies, others aver that he did certainly use the term as reported, but to gratify the gentleman, we stand corrected, there being no more christianity in the one than in the other.

Comments on the Action of the Grand Lodge Against the Admission of the Colored Man.

From the proceedings of the W. G. Lodge, published in the *Gazette*, the members of Iron City Lodge, No. 36, A. P. A., anticipating a visit from the Acting W. G. Master, to their Lodge on last Thursday evening, to take away their charter, as directed by the Grand Lodge on Wednesday, turned out strong and with a large number of visitors, their Lodge room was crowded, and uncomfortably warm.

All were excited over the outrage that was attempted by the Grand Lodge, to be perpetrated on Iron City Lodge.

The Lodge opened in the usual form, and transacted its regular Lodge business.

The matter uppermost in the minds of all was discussed, during which the acting W. G. M. announced himself through his conductor. The Lodge immediately appointed a committee to ascertain who the W. G. M. was, and examine his credentials, as the Lodge knew nothing officially, her representative not being admitted to the Grand Lodge.

The committee retired and announced the instructions of this Lodge and asked to see the credentials necessary, in the absence of official notice. The acting W. G. M. had no authority on paper with the seal of the Grand Lodge, but he had his authority for acting as D. D. G. M., which he handed to the committee.

The paper was read to the Lodge, and his admission as D. D. G. M. was agreed to.

But while the Lodge was acting on the matter, the person claiming to be W. G. Master and D. D. G. Master at the same time, discovered that he had "put his foot in it"—he was swamped—he was caught in the act of attempting to hold two important official positions in the Grand Lodge at the same time; the one of doubtful authority, and the other, according to a resolution passed by the W. G. Lodge in 1858, expired when the worthy Grand Lodge adjourned, at any rate a person cannot hold two official positions at the same time in the Lodge. As soon as the mistake was discovered, those claiming to be Grand Lodge officers, wisely concluded that if they could not be admitted as such they would not enter the Lodge room at all, which they didn't, and quietly retired.

Lodge No. 36, 25 and 46 have always been recognized as legally instituted Lodges.

Lodge No. 36, for I speak for it, has committed no wrong, that it is aware of; no complaint or charges have been lawfully preferred against it. Yet the representative of that lodge is denied a seat in the State Grand Lodge, simply because No. 36 dared to and did recognize the action of the R. W. G. Lodge as legal and binding on them, and in view of the privileges extended, and under compulsion of the Worthy Grand Lodge of the State of Pennsylvania, threw open the doors of their lodge room and struck hands with the American colored Protestant citizen in the advancement of the pure principles inculcated by the American Protestant Association.

The reasons assigned by the members of the Grand Lodge, for voting to confiscate the charters of 25, 36 and 46, were numerous, but they were unsustained by either christianity or the principles of the Protestant Association, and all reverted back and centered on prejudice. True, some voted under instructions of their Lodge, but contrary to their own views and feelings. But the general allegations, were, that those Lodges did not comply with the request of senseless resolutions, a copy of which Iron City Lodge No. 36 never received, passed at an illegal meeting held by a few members of the Grand Lodge in Philadelphia, on the ninth of January 1871, of which the Lodges in the State were not notified as the law requires.

The proceedings at that meeting are as follows:

WHEREAS, The R. W. G. Lodge, having stricken out the word "white" from the constitution of Subordinate Lodges, without any declaratory act, or subsequent legislature thereon, and

WHEREAS, It is believed that at the present time any further attempts to introduce the black man into our Lodges or into the Order in this State would tend to disorganize, disrupt and finally break up the Order in Pennsylvania. Therefore be it

Resolved, That this W. G. Body request the R. W. G. Lodge to organize a separate Order, with a different semi-annual pass word, for the colored man of the United States.

Resolved, That until suitable action be taken by the R. W. G. Lodge—in defining a proper mode of organization, the subordinate Lodges of Pennsylvania be requested to suspend further proceedings in this matter until after the meeting in June next.

Resolved, That striking out the word "white" from the Constitution of Subordinate Lodges, does not mean amalgamation with the black men of the United States and was not so intended by those who were willing they might be admitted in such capacity as the R. W. G. L.,—should in its wisdom devise by preparing a suitable formula for their especial use.

The printed minutes of the R. W. G. L., of 1869, brand the first *whereas*, as a deliberate and base falsehood, and slander on the R. W. G. L., for, on page 9 of minutes of R. W. G. L., will be found an amendment offered, June 14, 1869, by Mr. Smith, of Massachusetts, to strike out the word "white" which under the rule laid over for one year for consideration. At the session held in the city of Boston, in June 1870, one year after the amendment was offered, it was approved of by 54 to 14.

We will simply state in reference to the second *whereas*, that since the word "white" has been stricken out, about a dozen new Lodges have been organized, and not a single one of them has been instituted in this State upon the application of the colored Protestants, so the Order has enjoyed a heavier increase since that ambiguous word in its true sense has been removed, than it has during the last fifteen years combined. The records prove these facts.

The first resolution is egotistical and impudently presumptive. It requests the R. W. G. L. to do a thing it was not asked to do. If the colored men want a separate organization they are abundantly competent to create one, and promulgate their own pass words.

The third resolution, after defining that men of different shade of color were not intended to associate and mix together for any particular purpose, turns the matter over to the wisdom and desire of their W. G. L., but dictates that a suitable formula for the especial use of the colored race shall be provided.

This matter in all probability will be brought before the R. W. G. L. on Monday. If that body has passed a law, calculated to extend and strengthen the A. P. G. it will certainly defend those lodges that have been insulted and outraged by the W. G. Lodge of Pennsylvania, for doing that which the W. G. Lodge itself compelled them to do. On the other hand if the word "white" was stricken out merely for buncomb, and that good and noble act, to be considered as a humbug and a farce, then the actions of the oppressors and prejudiced will be sustained.

The pure christian principles of the A. P. A. are fully represented in the G. L. Prejudice rules and spite directs the actions of men in many cases where love and charity should occupy the throne of wisdom. JUSTICE.

THE MINSTRELS—Simmons & Slocum's minstrels have done during the week what has not been done before since the new Opera House was opened—they have filled the theatre every night. Last night the attendance was large and respectable, and another new bill was given, which was excellent in every respect. Although the second part of the programme introduces the company in comicalities of the broadest character, nothing of a vulgar nature is allowed to creep in. To-day two performances will be given—evening and afternoon.

STRAWBERRY FESTIVALS.—The festival for the benefit of the Point church has been very successful, the attendance having been large every night since the commencement. To-night is the last night.

POLICE NOTES.

Brief Mention of Criminalities.

Dod. Scott threw a large stone at Mr. Birchill, for which Mrs. B. lodged an information before Alderman Irwin, of Allegheny. Dod's caught, or will be soon, on a warrant which has been issued for his arrest.

Mr. McKeever had his son arrested yesterday morning for incorrigibility, by one of Mayor Callow's force, but the young hopeful wouldn't stay arrested. He took a "new departure" from the clutches of the officer and made good his escape.

James Fred was before Mayor Brush to answer a charge of beating his wife. He struck her on the hand and broke one of her fingers. The Mayor imposed a fine of fifty dollars, in default of which James was sent to the Work House for sixty days.

An insane man, who has been annoying the citizens of the upper portion of Allegheny, was arrested and conveyed to the lock-up yesterday morning. In the afternoon he was taken to Dixmont.

Mr. Samuel Smith, who resides near Mansfield, appeared before Alderman Strain and charged Jas. R. Caldwell, who is a married man, with adultery with his (Smith's) daughter. Caldwell was arrested, and upon giving bail in the sum of $500 released.

Caldwell then called the Alderman's attention to the fact that it was his turn next. He *called well* in this case for Smith was required to give $1000 bail for a hearing upon charge of a breach of the peace. Caldwell's statement was that Smith had previously started a criminal prosecution in the case alluded to, and being unable to establish his point, had threatened his life and he feared that his threat would be put into execution.

The case of the commonwealth vs. Knapp *et al*, the cannon firing nuisance case tried some time ago in the Quarter Sessions, in which the jury was unable to agree, came up for argument this morning. After the former trial, the Legislature passed an act legalizing the proving of cannon, on the proving ground of the Knapp Fort Pitt Works, and providing that no indictment should be found or prosecuted against them or their employees for such firing, but making the Company liable in the action of law for all loss and damage sustained by any person or property. The question to be argued this morning, whether or not the Court are required by this act to arrest the criminal proceedings. United States Attorney Swoope, and Wm. M. Marshall are for the defendants. The Court will will be represented by Messrs. Stewart and Perry.

Wm. Farly made information before Alderman Crist, stating that Louis Engle, who keeps a tavern on Franklin street, Allegheny, had attempted to keep back a part of the change due him from a $10 note. Louis paid the damage and the matter was settled.

The following cases were before Deputy Mayor Nichols, of the Sixteenth ward.

John Green preferred a charge of surety of peace against Michael Gaven. Gaven brought a cross suit against Green for assault and battery. A hearing will be heard in both cases on Monday evening.

Mr. N. S. Crawford charged two boys named Morgaroth and Haus with assault and battery, alleging that they had made a brutal attack upon his son, from which he lay insensible twelve hours. Warrants issued.

Jones Tucker was charged by Mrs. Smullen with false pretense. He obtained boarding from the lady to the amount of $18, alleging that he lived in Wheeling, and was expecting a money order for thirty dollars. Which the same was untrue. A warrant was issued.

Gotleib Fib was charged with keeping a ferocious dog. He was released upon paying the costs and promising to shoot the dog in presence of witnesses.

M. W. Watson charged John Forrell with malicious mischief consisting in his driving the tongue of his wagon through Watson's buggy, thereby breaking it and endangering his life. Warrant issued.

Charles Kerr made a charge of assault and battery before Alderman Taylor against Albert Sadler. Albert, it is alleged, struck the plaintiff twice on the head with a cane. The parties reside in Wilkins township.

John Lee is the defendant in a suit before Alderman McMasters, wherein he is charged with obtaining boarding at the house of Francis McGuire by false pretense. The accused, in default of bail, was committed to jail for Court.

Richard Beiderman was accused of perjury, yesterday, before Alderman Strain. Antony Rutger, who swore to the information, alleged that the accused did swear falsely in a certain civil suit lately pending before the above-named magistrate. Warrant issued.

In the case of the Commonwealth vs. Jacob Weber and Martin Greene, road supervisors of Indiana township, charged before Alderman Strain, on oath of Allen Aber, with misdemeanor in refusing to pay proper attention to certain roads, the magistrate yesterday held the defendants to appear at the September term of the Court of Quarter Sessions.

Mr. Morgan R. Wise, a liquor merchant of Greene county, is bringing to "time" several parties in this city who it seems have been endeavoring to beat him. In addition to the case mentioned in yesterday's GAZETTE Mr. Wise has made another information before Alderman Strain, charging one John D. Buckley with misdemeanor. The allegation is that the accused did fraudulently obtain possession of three barrels of whisky, belonging to the prosecutor, and valued at $250. A warrant has been issued.

A Tin-pot alley liquor case was brought to the attention of Alderman Strain yesterday, Catharine Butler charging Jeremiah and Mary Holland with dispensing the "dark beverage" without that authority which was lately obtainable at the hands of the Board of Licensers. These alleged offenders were arrested and held for a hearing.

SABBATH SCHOOL ANNIVERSARY.

Happy Children and Fragrant Flowers—Inspiring Music—A Well-spent Hour.

The Fifth Anniversary of the Sixth Avenue Mission Sabbath School was held last evening in the Second United Presbyterian church, corner Sixth avenue and Cherry alley, Pittsburgh. Long before the appointed hour crowds of well-dressed and smiling children might have been seen wending their way to the church, almost every one having one or more beautiful boquets in their hands. The little girls were almost all attired in spotless white, and the boys displayed their very best. Many of the parents and friends of the little ones were there also, deeply interested in the happy occasion. When the appointed hour had arrived the building was filled to repletion with a happy and expectant throng.

The chief auditorium of the church was fitted up in handsome style for the occasion by the ladies. Shields of evergreens adorned the walls, while from chandeliers and pillars suspended baskets of natural flowers. On the front of the platform were arranged pyramids of boquets, while from behind was seen a stately pile of valuable books—the gift of the Superintendent to the children.

Professor Johnson presided at the organ, while Professor Cretawled the singing. The singing of the children throughout was extremely good. The exercises were opened by singing of the One Hundredth psalm to the tune "Sweet By and By"; after which the entire audience read in concert as a scripture lesson the fifty-first chapter of Isaiah, fourth and eleventh verses inclusive. The opening prayer was then offered by Rev. W. D. Matthews, of New York. After singing again the Superintendent submitted his report for the past year, which was highly gratifying. A concert exercise was then conducted by Mr. T. J. Gillespie, entitled "The Christian Warfare." The exercise was interspersed with singing and recitation of Scripture in concert.

After the distribution of the books to the children they all returned to their homes well pleased with their Fifth Anniversary occasion.

Our Arrangements and Facilities.

We are prepared to give prompt attention to those who arrive by the R. R. cars or steamboats and wish to depart the same day

Persons at a distance wishing to obtain medicines for their friends, will bring a specimen of wine for examination, or have it sent by Express.

The patients will be careful to take the first urine passed after a night's rest, and in all cases to give their *age*.

The latter is necessary to a correct diagnosis as well as to the regulation of the quantity of medicine prescribed.

We would like to have the *name* and residence also of every patient.

The advantages of this will be apparent to all, but especially to those who may wish to send back for a second course of medicine.

We keep a regular record of each analysis and prescription, by comparison with which, we are enabled on subsequent examinations to determine the improvement in the case, and make the required changes in treatment when necessary.

The facilities which Packet Boats and Express Lines furnish for quick transportation of small packages, to and from every point within five hundred miles of this place, make it sufficiently convenient for the treatment of all chronic diseases. In fact, this system of diagnosis, conducted upon the latest scientific principles of Urino-Pathology, is far more certain and much more to be depended on, than the usual "pulse and tongue" examinations alone. MOORHEAD, PA., June 6, 1871.

EDITORS GAZETTE: The fishing festival got up by the Sodom crowd took place on Thursday, June 1st, at 2 P. M. There were some seventy-five or eighty couple in attendance. A happy time was spent. Their baskets they left at Mr. Samuel Morton's, and at 5 P. M. they adjourned for the barn to partake of the contents of baskets. After supper a dance took place, and all had a pleasant time.
PUNCH.

The troubles of Commissioners Neely and McGee have created almost as much excitement throughout the city as the announcement that Messrs. Urling, Follansbee and Co. had received a new and choice stock of summer goods, suitable for making up into suits, stylish and serviceable, and with which they propose to clothe all who call upon them at the southwest corner of Fifth avenue and Wood street.

GENERALITIES.

MR. SPEER, at Passaic, has the largest vineyard in this country east of the Rocky Mountains. The total number of vines under cultivation exceeds 40,000. The vines are trained to upright stakes, and are cut down yearly, thus giving less verdure and more fruit

A DISEASE of the brain, which, so far, has baffled all medical skill, is prevailing in Petersburg, Va., to an alarming extent. Chief among its symptoms is a sort of paralysis of the neck, by which the head is drawn back and remains in that position until death ensues to relieve the sufferer.

THE Louisville *Courier-Journal* says that it is 240 degrees in the shade down where it is. We had supposed the heat to be greater there, but the old proverb says that the Devil is not as black as he is painted. And we suppose the place where he and the *Courier-Journal* are is not as hot as it has been depicted.

A MARYLAND paper asserts that since the establishment of a Baptist Church in their neighborhood the citizens of a Delaware town refuse to eat fish taken from a stream in which the converts are baptized, for fear the evil spirits which they suppose to be removed from the baptized persons have entered the fish and they will thus become possessed of them.

WILLIAM GIVENS, who resided on Horse Branch, went to Covington, Ky., on Friday last, in a light express wagon. On his way home in the evening, he took a number of drinks of liquor at Sanfordtown, which intoxicated him, and in that condition he reached home. His wife, being unable to get him out of the wagon, placed a bed in it, and he remained there all night. The next morning, when she went to arouse him, she found that he was dead.

THE New York *Mail* says: "A decidedly new fashion is being introduced by some young gentlemen in the manner of carrying canes. Everyone knows that these convenient playthings are sometimes awfully in the way, especially when with a lady on a crowded promenade. A ring of gold is now worn, securely fastened on the watch-chain, near the vest pocket, in which the cane can be hung, as a scabbard, thus leaving both hands free."

A NOVEL experiment was tried in New Jersey recently, in the case of a boy who was drowned in Pen Horn creek while bathing. Two Canadians seeing men dragging the creek for the body, approached, and told them they would try an experiment. Accordingly, a number of bottles were filled with quick lime, tightly corked and thrown into the creek. In about an hour one of the bottles burst with a great noise, and soon the body rose. The Canadians could not explain the theory, further than by saying that when a bottle floats directly over a corpse it will explode and the body will rise.

THE Seneca Falls *Reveille*, of last week says: A son of Isaac Bishop, living near Ovid, about thirty years of age, has whittled out a wheel that will run till worn out. A rather singular coincidence, that at about the same date with the above, a man living near Bearytown has also produced a self-running machine. It may be held fast by the hand, and upon releasing the hold will start off itself and gradually accelerate until it gains its maximum rate of speed. It is thought by those who have seen it, that it can be applied to an almost endless variety of uses, and is consequently worth millions of dollars to the inventor

THE Clark *Courier* has been informed by a gentleman living near the Shenandoah river, that while a surveying party were defining lines between Clarke and Jefferson counties they discovered on the west side of the Blue Ridge some seventy trees within a given radius that were blasted and shivered by lightning. The only theory that can be advanced to account for it is that there are deposits of a character possessing powerful magnetism, which attract the electricity of the flaming clouds whenever a storm sweeps the mountains. The location of this strange phenomenon is near what is known as the Raven Rock.

AN important railroad enterprise is noted in South America, being no less than the construction of a Pacific railroad from Rio Janeiro across the South American continent. Mr. Frederick Lane, a well know Director of the Erie Railroad is reported to have resigned his office in that road for the purpose of assuming the direction on this South American Pacific Railroad. The enterprise is in the hands of a company of English capitalists, who immediately intend to survey the whole route, and push forward operations as rapidly as circumstances will permit. A corps of engineers has been organized, and is already on the way to Brazil, where Mr. Lane will presently join them.

CROP ITEMS.

THE crops in Mower County, Minn., are looking very promising, particularly wheat and corn. Potato bugs are numerous and enterprising.

THE Columbus (Wis.) *Republican* says potato bugs have won the day in that locality. Fields planted to potatos have been plowed up and devoted to other crops.

THE Albia (Iowa) *Spirit of the West* says the chinch-bugs are making sad havoc with the wheat fields in that region. Several fields have been plowed up in consequence.

WM. STAUFFER, of Winnebago city, Minn., has discovered a new worm which is killing the grain. It is found near the root of the stalk, and is nearly half an inch in length. Some are of a dark color, while others are white.

THE Page county (Iowa) *Herald* says; "One-fifth more corn has been planted this year in Page county than in any previous year, and it looks splendid. This increase means that Page county intends raising still more stock. She stands in the Chicago market first among Iowa counties as a stock-raising county."

THE Dayton, Ohio *Journal* says: "Mammonth measuring worms, by millions, are infesting the trees of the forrest to the northward. They are especially fond of the leaves of the oak, denuding the trees in many places. After devastating the trees these loathsome-looking crawlers let themselves down by means of a thread-like cobweb which they spin as they sail, and striking the ground, they work their way down into the bowels of the earth."

THE Cedar Rapids (Iowa) *Times* chronicles the arrival of a new worm: "Right upon the most favorable reports of the good condition of the growing crops comes a report from Fayette Township that a worm is destroying the meadows in that section of country. Our correspondent says this new enemy looks somewhat like a cut worm, but is much larger, being about one-fourth of an inch in diameter, and from one to two and one-half inches long. Their ravages seem to be confined to timothy fields, as they have not yet injured the clover."

THE Muscatine (Iowa) *Journal* says: Mr. J. F. Curley, a farmer and fruit raiser on Muscatine Island, who called on us yesterday, remarked that he never knew so many insects at work destroying the crop as this season. He says a light green worm, half an inch long, is eating up his stawberry vines; the striped squash bug is at work on melon vines; cut worms are destroying the young corn: little speckled flies are eating the leaves of grapes, while some of his neighbors report that black worms are eating the bottom of the grape. Then, worst of all, the Colorado potato bug is ravaging potato vines.

Speaking of the peach prospect in southern Illinois the *Prairie Journal* says their is promise of a most abundant harvest. The indications are that Cobden will be able to ship from twenty to twenty-five car loads of peaches during the season. Mokanda claims to have about as good a prospect and it is believed that the towns on the Illinois Central Railroad, south of Du Quoin, will be able to load fifty cars per day. Du Quoin will probably have about 5,000 bushels to ship. It is thought that the first shipment of peaches from Cobden will be about the 25st of June.

THE Kansas City (Mo.) *Journal* of June 4, says: Mr. Z. O. Smith, of the firm of Dewar, Smith & Co., of this city is just in from an extended trip through the country. He has spent the last five weeks in Western Misouri and Kansas, in looking at the wheat prospect for this harvest. He says that, notwithstanding the great complaints of farmers as to the ravages of the fly and rust through Western Missouri, in the counties of Atchinson, Holt, Andrew, Buchanan, Platte, Clinton, Clay, Ray, Jackson, Johnson and Cass, the promise at this time is about an average crop; and that through Kansas, the increase over last year will be very great. With the exception of Johnson and Miami counties, the fly has done no damage worthy of note, and the average yield per acre will be greater than it has ever been since the settlement of the State.

THE following lines, written by "Tucker," of Virginia, were copied from an American paper and published in Belfast, Ireland, in 1822. They were handed to us by Samuel McClurkan, Esq., with request to publish.

Days of my youth, they have glided away,
Hairs of my head, they are frosted and gray,
Eyes of my youth, their keen sight is no more,
Cheeks of my youth, they are furrowed all o'er,
Strength of my youth, all your vigor is gone,
Thoughts of my youth, your gay visions are flown.

Days of my youth, I wish not your recall,
Hairs of my youth, I'm content ye shall fall,
Eyes of my youth, much evil you've seen,
Cheeks of my youth, bathed in tears ye have been,
Thoughts of my youth, ye have led me astray,
Strength of my youth, why lament your decay.

Days of my age, you will shortly be passed,
Hairs of my age, yet awhile you can last,
Thoughts of my age, in true wisdom delight,
Eyes of my age, be religion your light,
Thoughts of my age, dread not the cold sod,
Eyes of my age, be ye fixed on your God.

THE new church organization, at the head of which the Rev. Stephen Tyng is supposed to be, cannot be said to possess very flattering elements of progress or cohesion. It is composed of Mr Tyng who refused to obey the laws of his church; Mr. Quick, who edits a paper, the object of which seems to be to deride, abuse, malign and subvert the church of which he is nominally a servant; Mr. Cheney, who thought the laws of his church ought to be turned up side down, because they did not suit him personally, and a few other discontented disturbers. Whether they can get any better, now that they have gotten together, than they did before, remains to be seen.

Suburban Property
AT AUCTION,
At Superior Station, P. Ft. W. & C. R. R.

On the premises, on THURSDAY; June 15th, at 4 o'clock P. M., the elegant

RESIDENCE AND GROUNDS

Of the Rev. F. X. Orr, at Superior Station. The residence is a well built and splendidly finished frame building of 13 rooms with inside shutters to all the windows, gas all through the house, and fine spring water in the house.

On the grounds is a fine Frame Stable and Carriage House, and splendid Spring House. The grounds comprise about two acres and is liberally planted with choice varieties of fruit, shrubbery and flowers.

The buildings are all comparatively new, only having been built about three years, and are in splendid order, and have been built and fitted up with every convenience for a comfortable home and is not more than five minutes walk from the terminus of the Manchester street cars. This property is certainly very desirable, being convenient to the city, either by railroad or street cars. Persons wishing to attend this sale will be supplied with tickets on application to C. H. LOVE, 58 Fourth avenue.

PROPOSALS.

To Iron Manufacturers.

Proposals for the Metal Work of a First-Order Light-House, to be Erected at Body's Island, North Carolina.

OFFICE OF LIGHT-HOUSE ENGINEER,
FIFTH DISTRICT,
BALTIMORE, MARYLAND, May 25, 1871.

Sealed proposals will be received at this office until 12 o'clock of SATURDAY, the 17th day of June, 1871, from iron manufacturers only, for furnishing the materials and labor of all kinds necessary for the completion of the metal work of a first-order light-house for Body's Island, North Carolina, in accordance with the specifications and drawings.

The same to be delivered, at the expense of the contractor, on board a sea-going vessel or vessels, at any sea-port nearest to the manufacturer's workshops, and accessible to such vessels.

The bid should state the sum for which the ENTIRE METAL WORK, as shown on the drawings, will be completely, fully erected at the workshops, and then taken down after acceptance, and delivered as aforesaid, and should also state the day and date on which it shall be so completed and delivered, under forfeit as specified in the "Form of Bid."

The right is reserved to reject any proposal for any reason deemed sufficient.

Each bid must be accompanied with a bond, signed by the bidder and two competent sureties, (certified to be such by some officer known to the Treasury Department,) in the sum of ten thousand dollars, ($10,000,) that in the event of the acceptance of such bid, the necessary contract will be entered into within five (5) days after notice is given by the agent of the Light-House Establishment that the bid has been accepted.

Bond and security, in the sum of ten thousand dollars, ($10,000,) signed by two competent bondsmen, for the faithful performance of the contract, will be required.

A copy of the plans and specifications must be inclosed with the bid, as evidence as to the object of the proposal

All proposals must be signed, sealed and indorsed "Proposals for the metal work of a light-house for Body's Island, North Carolina," and then inclosed in another envelope and directed, pre-paid to the undersigned.

Any bidder may be present and witness the opening of the bids at the time and place herein-before specified.

Plans, specifications, and forms of proposals may be obtained from the undersigned, on application, by mail or in person, at his office in the Union Bank Building, Baltimore, Maryland.
